

## GIRL SEEKS REST AT END OF ROPE

Despondent and "Tired" Belle Dunn Suicides in Basement of Home During Night

FOUND BY AGED MOTHER

Toes Just Touching Ground and Death was Due to Strangulation, Says Coroner

Obsessed by the idea that there was no one in the entire world that cared for her, in ill-health as a result of a fall down a flight of stairs last April, and with her nerves shattered by overwork and the excessive heat of the last month, Belle Dunn, aged 31 years, an employee of the Faler Seed Company, last night suicided in the kitchen of her home at 2617 South Fourteenth street, by strangling herself with a piece of clothesline.

Her mother, an aged white haired lady, who is apparently dazed by the affair, declares that Belle must have been temporarily insane. She is of the opinion that the heavy fall which Belle sustained in April when she fell down a flight of stairs at the Keefe Business college and injured her head, was the cause of the melancholia which brought on the suicide.

"Belle was never quite right since that fall," she said this morning. "The neighbors will tell you that. And then she has been overworking, going to night school after she completed her work at the seed house. The heat has bothered her intensely, and she has been really a nervous wreck for a month. But she would not stop working, she was too ambitious. I am sure that it was not premeditated."

It is believed that the act was committed last night about 12:30. At that hour her mother heard a slight noise in the basement, where Belle was sleeping, because of its coolness and thought that Belle was getting up to brew a cup of tea, a custom that she had fallen into when sleep failed her.

**Mother Finds Body**  
The mother discovered the body at 6 o'clock this morning when she went into the basement kitchen to prepare breakfast. She found the body of her daughter swaying from a rope in the doorway, with the toes touching the floor. Beside her was an overturned chair, upon which it is thought that she climbed to fasten the rope. The loop in the rope was loose and death resulted from strangling. On a table nearby was a lighted lamp. It is thought that the noise noticed by the mother was the noise of the falling chair as her daughter swung herself into eternity.

Mrs. Emil Olson, a school-girl friend of the dead girl, who with her husband, visited at the Dunn home last night, this morning declared that Belle had exhibited signs of intense melancholia last night, and had repeatedly declared that she was "tired."

"Emil tried to jolly her," she said this morning, "and tried to induce her to take a walk and cheer up, but she would not smile. She declared that there was no one in the world that cared for her, and seemed as blue as could be. When I asked her what the matter was, she declared that she was 'just tired.' When we left she had started to read a newspaper."

**Coroner Notified**  
As soon as the body was discovered, word was telephoned to the police and to the coroner. Coroner Kieker and Officers Wolfe and Horvath went immediately to the home, where the body was cut down. Kieker decided not to hold an inquest.

How long the girl hung waiting for the noose to choke out the last spark of life is not known but everything indicated that death did not come soon.

The body was taken to Tetley and Elbertson's undertaking establishment.

Deceased is survived by two brothers, Bernard and Donald, a sister, Mrs. Alice Kuhlman, 415 South Fifth street, and the mother and father. The father, Bernard, Sr., is a hopeless invalid, having been paralyzed and deaf for seventeen years.

The funeral will be held Wednesday afternoon from the house at 2:30. The Rev. D. C. Jones, pastor of the Presbyterian church, will officiate. Interment will take place in Oak Grove cemetery.

**ALLEGED ROBBERS CAUGHT.**  
ST. LOUIS, July 17.—Charles Connors and Daniel Callahan, wanted here on a charge of robbing the Bremen postoffice sub-station and wanted in Chicago in connection with a daylight hold-up, are under arrest in London, England, according to a dispatch received here today.

They are wanted in Chicago as two of a party of automobilists who entered as customers and robbed a Milwaukee avenue jewelry store.

## "Men Higher Up" Are Indicted

SIMON O'DONNELL, President of the Chicago Building Trades Council, indicted as accomplice in the Murder of Vincent Altman in Slugging War.

CHICAGO, Ill.—Three prominent labor leaders, some of the "men higher up" in the labor slugging war, were coupled with Morris "Boss" Enright in a new indictment charging the murder of Vincent Altman in the Briggs house bar room on March 22 last. The men who now face trial on a charge of murder in the first degree are Simon O'Donnell, president of the Chicago building trades council; Thomas Kearney, James Garvin and Morris Enright.

## PROBE MINE BLAST

U. S. RESCUE CAR SENT TO LEARN CAUSE OF DEATH OF TWENTY-TWO MINERS

DUBOIS, Pa., July 17.—Ten additional coffins, making twenty-two, today arrived in Sykesville, near here, to be used to be for the bodies of the twenty-one victims of the explosion in the shaft of the Cascade Coal & Coke company late Saturday. Early today the rescue car of the bureau of mines returned to Pittsburgh after trying to learn the cause of the accident. Head Chemist Burrell took samples of blood from the bodies of the victims later to determine whether death resulted from poisonous gases or burning.

## ROOSEVELT MAY BE CALLED TO TESTIFY

WASHINGTON, July 17.—At an executive meeting of the Stanley steel committee today, it was decided to resume hearings in Washington on Thursday. Commissioner of Corporations Herbert Knox Smith and other officials of the bureau of corporations will testify.

On July 27 the committee will meet in New York and the question of calling J. Pierpont Morgan and former President Roosevelt to testify there is now under consideration.

A resolution adopted by the committee today instructed F. H. McRae, accountant for the committee, to go to Pittsburgh to examine the books and records of the United States Steel corporation and its subsidiary companies.

## GOVERNMENT FISH CAR IN LA CROSSE

The fishery car of the department of commerce and labor of the United States, in charge of W. E. Smith, is awaiting the arrival of the government steamer Curlew, which is due here within a few days with a load of small fish which are to be used to keep the fish from becoming exterminated in different parts of the United States. As soon as the Curlew arrives the fish will be transferred to the car and a tour of the states will be made. At present the car is on one of the Milwaukee sidings.

## WILEY'S CASE TO BE SETTLED TOMORROW

WASHINGTON, July 17.—Tomorrow's cabinet meeting will decide the fate of Dr. Harvey W. Wiley, chief chemist of the government, accused of "irregularities." President Taft today sent to the department of agriculture for all papers in the case. He expects to put the matter up to the cabinet tomorrow. Wiley is not worried over the prospect.

## IOWA AUTOISTS TO MEET

DES MOINES, Iowa, July 17.—Three automobile club members, good roads advocates Iowa mayors, and Iowa editors will meet here on Wednesday to complete plans for the urging of national highway plan up congress. A permanent organization is expected to grow out of the meeting.

## CHOLERA SCARE GROWS IN EAST

Government Experts Rushed to New York to Combat Spread of the Plague

SERIOUS CHARGES ARE MADE

Quarantine Officers Asked for Report on Situation by Governor Dix

NEW YORK, July 17.—A complete report on the cholera situation at the port of New York was peremptorily demanded today in telegrams received by Dr. A. H. Doty and Judge Charles N. Bulger from Gov. Dix.

The governor was plainly concerned over the report that additional cases are developing daily at Quarantine and his telegrams, which are couched in mandatory language, insist on a complete explanation of just how serious the situation is, not only from Health Officer Doty but from Bulger, who is investigating on behalf of Dix serious charges against the management of the local quarantine station.

It was admitted at quarantine today that a number of the patients now ill of the disease cannot recover. Already six of the passengers taken from the liner Moltke, which arrived here on July 2 have succumbed to the plague.

**U. S. Experts Sent**  
So serious is the cholera situation at this port considered that experts of the public health and marine hospital service at Washington reached here today to aid in keeping the plague under control. There are fifteen cases in the detention hospital on Swinburne island and there have been three deaths within forty-eight hours. Half a dozen others are in a serious condition and may not recover.

The row between Health Officer Doty and the persons who alleged that immigrants are inhumanely treated has reached a climax and it is asserted that the efficiency of the local quarantine station is seriously interfered with. Charles N. Bulger, who has been investigating the charges on behalf of Governor Dix is expected to recommend Doty's removal from office. Doty insists that he is being persecuted by a coterie of Tammany politicians who want his job, one of the richest in the state service, for a Tiger henchman.

**Double Detention**  
All of the steerage passengers from the steamers Moltke and Perugia are in the observation wards at Hoffman's island. The fifteen cases of actual cholera now on Swinburne island all came from the Moltke. Both steamers came from Italian ports and it was decided today that here after the detention period for immigrants from Italy shall be doubled.

Following a conference with all of the heads of his departments today Dr. Alvah H. Doty, health officer, said there was no need of apprehension that the disease would get into this country. He said that while the situation is admittedly serious, his men have it well in hand and that with the renewed precautions it would be impossible for any case of infection to get through quarantine. Dr. Doty will be given an opportunity to testify before Commissioner Bulger in his own defense this week. The charges he will have to answer, which have been sworn to by certain immigrants and dissatisfied employees of the quarantine station, include:

Failure to separate the sexes; forcing immigrant women to work ten hours a day for the privilege of seeing their sick children; serving improper food in dirty utensils; no bathing privileges for immigrants; bathing dead and live bodies in the same water; abuse of immigrant women by orderlies; a sick child's mouth closed with sticking plaster to keep it from crying; employees not compelled to fumigate their clothing on leaving the island.

Every one of the charges, Doty said today, is untrue.

**Grave Danger Admitted**  
WASHINGTON, July 17.—That there was grave danger of Asiatic cholera gaining a foothold in this country was the opinion expressed by Surgeon General Walter Wyman of the public health and marine hospital service today.

"I am not an alarmist but I cannot deny that there is imminent danger," he said. "We are doing everything in our power but there is a chance that the cholera may spread despite our efforts."

Several more marine hospital experts were sent to New York today to aid in the cholera work there.

**May Call General Strike**  
NAPLES, July 17.—(Via Paris)—With coastwise trade greatly reduced and hampered, and foreign shipping virtually at a stand as a result of the cholera and the populace excited over the anti-cholera and sanitary campaign, the authorities today began preparing to cope with disorders.

Panicky in one respect and not fully realizing the gravity of the situation in another, the public is not properly co-operating with the authorities. Many persons protest.

## BIG FISH CAUGHT IN NET OF LAW

Prominent Minneapolis Men Said to Be Implicated by Robbers' Confession

NOTED DESPERADO KILLED

Jerry McCarty Shot In a Duel with Policeman, Who Is Also Killed

MINNEAPOLIS, Minn., July 17.—Fred A. Briggs, politician and cigar broker, arrested following the death of Jerry McCarty, an escaped convict, who was killed Saturday night by Patrolman Joseph Olinger, who tried to arrest him and was himself shot and killed, today made a signed confession of his connection with McCarty, according to Chief of Police Michael Mealey. The confession, according to the police, was signed after a long conference between Briggs, the chief and the county attorney.

Briggs' arrest was caused by the alleged confession of A. H. Denson, poolroom proprietor, who was with McCarty very often and who confessed, the police say, to being implicated in robberies committed and in the planning of others.

The police are now comparing the two alleged confessions. The police assert that Briggs may be charged with being an accessor to the killing Saturday evening of Patrolman Olinger, inasmuch as he knew McCarty intimately—knew he was armed at all times and was of such a disposition that he would kill at slight provocation.

"What is more," said the captain of detectives, "we hope to unearth a gigantic scheme, involving business men, the object of which was to carry into execution wholesale robberies. Denson, in his confession, gave the names of those persons, but they cannot be made public at this time."

The robbery of the Central State bank, near the scene of the double killing Saturday night, had been set for July 24, when the Soo line would deposit about \$30,000, according to the alleged Denson confession.

According to information received by the police early today, Jerry McCarty was born in Jefferson, Iowa, and his real name is Jerry Harrison. His first crime was that of arson. He burned a building at Jefferson and was sentenced to jail for six months. Later he was sentenced to the Madison penitentiary.

A brother, the police say, lives in Dickinson, N. D., and his mother lives in Arkansas.

## KING IS IN SCOTLAND

TROOPS AND CITIZENS ON ROUTE OF PROCESSION SHOW MUCH ENTHUSIASM—FOR SCOTCH

EDINBURGH, July 17.—King George arrived in Edinburgh today to get acquainted with his Scotch subjects as a part of the customary round of visits paid by newly-crowned British kings to their dominions. He was accompanied by Queen Mary, the Prince of Wales, Princess Mary, and numerous members of the nobility.

The royal party was welcomed by Secretary for Scotland, Lord Pentland, and other officials.

After responding briefly to the welcoming address, the King and his party drove in state to Holyrood palace, the oldest of Scotland's royal residences, but unoccupied except on occasions like the present, since the days of Mary, queen of Scots. Troops and thousands of citizens lined the route were quite enthusiastic—for Scotch.

The royal party will remain in Edinburgh until Friday, holding courts, levees, reviews, laying corner-stones and participating in other functions.

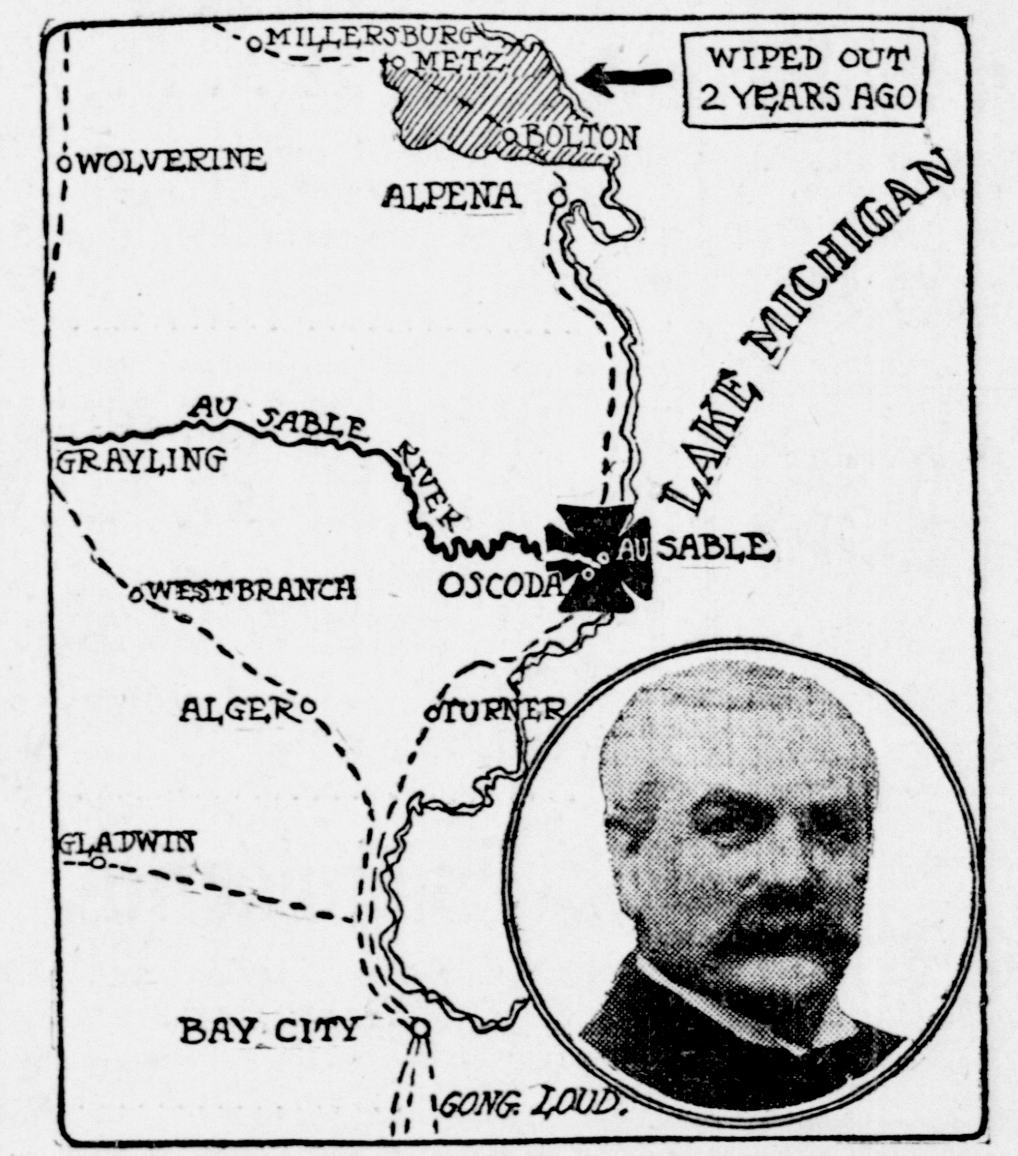

## FLEET TO ATTACK NEW YORK HARBOR

NEW YORK, July 17.—The most elaborate naval maneuvers ever participated in by the naval militia of the Atlantic states will start in real earnest tomorrow and last until Thursday. Until that time certain of various organizations, in connection with the Atlantic torpedo flotilla will defend New York city and its approaches from an invading fleet. Others will see service with the "hostile aggregation."

## RACINE MEN INJURED

RACINE, Wis., July 17.—George Ellingham and five other young men from Racine, who attended the Home Coming in Marinette Saturday evening were seriously hurt when the auto in which they were having a "joy" ride ran against a telegraph pole. Ellingham is in a hospital in a serious condition being hurt internally, while his companions escaped with minor cuts and bruises.

## FIRE ENDANGERS THE RIVER FRONT

Supposed Incendiary Fire Threatens Boathouses; Destroys Boyd Boat and House

A fire which is thought was possibly of incendiary origin destroyed a boat house and boat belonging to Andrew Boyd early Sunday morning, and for a time the flames threatened to consume the entire row of boat houses in the rear of the Listman mill. In addition to the loss of the Boyd boathouse five skiffs belonging to Joe Spears were badly damaged by the flames.

Mr. Boyd this morning declares that he placed no stock in the talk of an incendiary fire. He said that so far as he was aware there is no motive for such action. He inclines to the belief that the fire either was started by a spark from a passing engine, or that spontaneous combustion inside the structure was responsible.

The loss Mr. Boyd places at \$850. The boat house, which was practically a new one was completely destroyed, and the 27-foot launch was burned to the waters edge and sunk.

Employees of the Listman mill claim to have seen a man running from the spot just before the flames were discovered, and are firm in their belief that it was the incendiary. Mr. Boyd, however, scouts this statement, and declares that in all probability it was some one running to turn in the alarm.

The flames spread rapidly after the fire broke out, and by the time the fire department arrived other boat houses adjoining were threatened. The company therefore did not attempt to save the doomed craft, but devoted attention to keeping the flames from the other boat houses.

## FEARED WAR WITH TRUST.

WASHINGTON, July 17.—"Fear of precipitating a trade war, I believe, keeps independent refineries from coming into Louisiana, to buy sugar," testified J. E. Bruguiere, president of the Louisiana Sugar Planters' association, before the Hardwick sugar trust committee today. "I have tried time and again to get independents to buy our sugars," he continued. "They have refused but have bought our product at New York."

The committee left for New York this afternoon.

## CHURCH TO OPEN COPELAND PARK

Although Copeland Park has been open to the public all summer, there never has been any formal opening of the park or dedication of the north side pleasure resort. So as a formal dedication of the park, the St. James church of the north side will give a large ice cream social and band concert in Copeland Park, Wednesday evening at 7 o'clock. Besides this Mayor John Denzler and the members of the Park Commission will deliver addresses. The band will commence playing at the corner of Fourth and Main streets and board a north side car there for the park. There will be 350 lights installed throughout the park to accommodate the large crowd which will be present at the opening. In case of rain the celebration will be held on Thursday evening.

## LABOR HEADS ARE UP FOR CONTEMPT

Justice Wright Refuses to Dismiss Case Against Federation of Labor Officers

THEY WILL NOT APOLOGIZE

Anti-Boycott Association Accused of Being the Power Behind the Prosecution

WASHINGTON, July 17.—Charges that the American Anti-Boycott association and not the Bucks Stove & Range company had been the power behind the prosecution of President Gompers, Vice President Mitchell and Secretary Morrison of the American Federation of Labor were made to Justice Wright of the district supreme court, and practically admitted by Attorney Daniel Davenport, when the contempt hearing of the three labor leaders was called today.

"We offer to prove," said Alton B. Parker, counsel for the federation, "that Attorneys Davenport, Beck and Darlington, who appeared against Gompers and his colleagues, were in reality paid by the Anti-Boycott association and did not receive a cent from the Bucks Stove & Range company."

Davenport said he was counsel for the association, and that James M. Beck, former administration "buster," had been employed by it. Attorney Darlington was associate counsel for Beck.

These three lawyers formed the committee who reported to Justice Wright that Gompers, Mitchell and Morrison should be held for contempt of court. Wright overruled all motions to dismiss the charge, on the allegations that this committee was prejudiced.

Attorney Ralston, counsel for the labor leaders, interrupted to demand that the case be certified to another court on the ground that Wright had disqualified himself for a fair trial by expressing himself as to the alleged guilt of the men on trial. Wright overruled the motion and denied such expression.

A further hearing of the case was postponed until Monday. Gompers, Mitchell and Morrison were in the court room and showed no inclination to apologize.

## ZION CITY PROSPERS.

ZION CITY, Ill., July 17.—That prosperity is returning to the once bankrupt Zion City of Alexander Dowle, the prophet, was admitted today, following the announcement that \$27,000 was contributed yesterday to Wilbur Glenn Voliva, the general overseer, after he had kissed and consecrated the 285 babies of the city. Voliva announced that within the next few weeks he expects to open a home for reclaimed women in Zion city, and that in the fall the Zion college, closed since Dowle's death, will be re-opened.

**25c****WISCONSIN NEWS****AUTOISTS START LONG TRIP TODAY**

Twenty Cars in W. S. A. A. Run Leave Milwaukee Will Reach La Crosse Wednesday

MILWAUKEE, Wis., July 17.—Groomed and primed for a week's tussle with the sands and mud of Wisconsin, twenty sturdy automobilists left the Hotel Pfister at 6 o'clock this morning on the second annual reliability tour of the Wisconsin State Automobile association. The tour, which ranks in class with the biggest endurance motor events of the country, will be held for the next six days, during which time the cars will cover 1,000 miles of Badger roads.

The valuable prizes offered has aroused the greatest interest in the run and the competition promises to be of the keenest.

Today's journey, which is expected to be one of the most strenuous of the run, will take the tourists to Marinette. They will reach La Crosse Wednesday evening.

**LAD DROWNS ON VACATION**

OCONOMOWOC, Wis., July 17.—George Miller of Chicago, a young man spending his vacation here, was drowned Saturday in Fowler lake while sailing with Ervin Wollin, also of Chicago, who was on a visit with Oconomowoc relatives.

**VETERAN JUMPS TO DEATH**

MILWAUKEE, Wis., July 17.—Immanuel Cotter, 59 years, a veteran of the Civil war, committed suicide yesterday afternoon by jumping off the second story balcony of the main building of the Soldiers' home. Death was instantaneous. He is survived by his widow.

**COTTON IN BADGER STATE**

NEENAH, Wis., July 17.—E. A. Rhoades, who came here from Georgia, has been successful in growing a large field of cotton. This is believed to be a new record in Neenah, for although many attempts have been made to grow the plant in Wisconsin none has been successful heretofore.

**STATE BANK STATEMENT**

WASHINGTON, July 17.—The statement of the controller of the currency showing the aggregate principal items of assets and liabilities of Wisconsin national and state banks shows the total assets of 661 banks to be \$347,197,156. Loans and discounts are given as \$216,228,614; surplus, \$17,535,844, and individual deposits, \$264,196,891. An increase of thirty-one banks is shown.

**ELEPHANT FINDS A PIG AFFINITY**

Queer Attachment of Barnyard Hog and Tamed Beast of the Jungle

Animals widely diversified by nature often form queer attachments and find singular affinities when thrown together in one aggregation. Nowhere else in the world is this more vividly demonstrated than in the case of an elephant and a barnyard hog, comprising a part of the menagerie with Gentry Brothers' Greater shows, which will exhibit in this city Saturday.

When Gentry Brothers—the pioneers in trained animal shows began their career they had but little more than confidence in themselves and their ability as trainers and business men. They started with the lowly animals. Their first troupe numbered nothing more than a few ponies, a few dogs and two common house cats.

**Study Animal Nature**

As trainers they became great students of animal nature. From that small beginning they have enlarged and improved their exhibition until now the elephant of India, with his greatest adversary, the leopard, are found in the menagerie.

After acquiring two elephants years ago their greatest task was to teach them English, and then train them. This was done after long practice and great patience. The pachyderms from Asia were willing creatures. As they went through their little courses they became quite Americanized.

When the elephants were first introduced in Gentry Brothers' winter quarters the other animals held aloof from them. But after a few months of contact the creatures in that great performing family came to know each other.

**Pig Tackles Elephant**

"Casey," the trained pig, became an inseparable companion of "King," the elephant. One day a trainer noticed "Casey" walk deliberately up to the elephant. The largest of all creatures was lying down.

After a couple of grunts, which the elephant returned, the pig got busy. With his rough nose he began to scratch the elephant's back. The pachyderm was in his seventh heaven.

Now whenever "Casey" is unleashed he spends most of his time in the elephant ring. When the elephants go for water he goes with them. When they are fed their bran and oats "Casey" eats with them. In fact, "Casey" and "King" are the staunchest friends around the zoo. Both will be here when Gentry Brothers' shows exhibit in this city next Saturday.

Prices for this day only will be reduced to 25 and 35 cents.

Whenever it happens that the baseball umpire agrees with the crowd at once changes its mind.

**Fashion in Sacerdotal Guise.**

Mamie attended kindergarten at Christ church and was very much impressed with her surrounding. "They are so stylish at that church," she explained to her mother. "Every morning two men come down to the kindergarten to say prayers, wearing black skirts and white overdress."—Success Magazine.

**KILLED BY FALL ON KNIFE**

NEW YORK, July 17.—Helen Weinmann, 15 while romping with her dogs, knocked a silver knife from a table. She tripped and fell upon the knife, which entered her heart, killing her instantly.

**GIRL BETRAYS ABSCONDER**

CHICAGO, July 17.—Betrayed to the officers by an eighteen-year-old girl with whom he had become infatuated, Albert McGookin, 20, who absconded with \$3,500 from the National bank of Englewood, and who was arrested last night in Marengo, Ill., was brought back to Chicago. McGookin had spent all but \$7 of the stolen money in traveling and in buying diamonds. His travels took him as far as El Paso, Texas, where he was arrested and held in jail for two weeks as a suspicious person during the height of the Mexican uprising.

We have courts and a pardon board, and still we are expected to have respect for the law.

**HAYTIAN REVOLT SPREADS**

CAPE HAYTIAN, Hayti, July 15.—All available troops were sent to the northern part of the Black republic today by President Simon, who is personally commanding the federals in their effort to stamp out the insurrection. This move is taken as an indication that he is hard pressed. Latest reports from Fort Liberte say the insurgents have been successful in that vicinity.

**COUPLE START LONG HIKE**

NEW YORK, July 17.—Mr. and Mrs. Humphreys started at 10 o'clock today on a 48,000 mile walk which is to cover country on the globe and will wind up at the White house at Washington.

**PINCHOT CALLED IN ALASKAN GRAB CASE**

WASHINGTON, July 17.—Confirmation of the story that a map showing the Controller Bay, Alaska, entries of Richard S. Ryan, alleged Guggenheim agent, was filed with the war department only fifteen days after entry was actually made on the land, and that it would have been impossible for a bona fide map of this character to reach Washington from Alaska within that time, was made by Gifford Pinchot, former chief forester. The map is the same one which, it is now alleged, mysteriously disappeared from the files of the war department.

"Miss Abbott called on me to inspect the Ryan terminal map in the war department," Pinchot said. "She called my attention to the fact that the map was in Washington on December 15, whereas the survey of that land was not concluded until December 1. I saw that to get the map from Alaska to Washington in fifteen days was an impossibility, and I called the attention of Secretary of War Stimson to the matter. We discussed it for some time and he himself looked at the map." Pinchot was present at the hearing of the house committee on expenditures, which is investigating the Controller Bay "grab." He and the secretary of war will be called as witnesses later in the hearings.

**CHOLERA IN NEW YORK**

NEW YORK, July 17.—The second case of cholera outside of the contagious disease hospital in Swinburne island was reported to the health authorities today. It was that of Patrick Cushing, a watchman employed at quarantine, who developed the disease in St. Vincent's hospital, Livingston, Staten Island. He was hurried at once to the quarantine station, but died soon after his arrival there. Dr. Doty, port health officer, said that there was no reason to fear the spread of the disease because of Cushing's death. His house has been quarantined, and all other precautions taken.

**CALL PASTOR A HERETIC**  
DES MOINES, Iowa, July 17.—To decide whether Rev. Guy W. Sarvis, assistant pastor of the Hyde Park Church of Christ, Chicago, and the newly appointed professor of sociology at the University at Nanking, is guilty of heresy, the board of foreign missions for the Disciples of Christ in America is in session today at the University Place Church of Christ.**PANIC CAUSES THIRST**

BOSTON, Mass., July 17.—Statistics printed by the American Grocer show that the consumption of intoxicants in this country reached "high water" mark figures during the 1907 panic—140,084,426 gallons.

**Question Too Personal.**

"I had a mighty queer surprise this morning," remarked a local stock broker. "I put on my last year's suit and in one of the trousers' pockets I found a big roll of bills which I had entirely forgotten."

"Were any of them receipted?" asked a listener who seemed to be a pessimist.

And the temperature dropped immediately to a point where everybody felt comfortable.

**The Wealth of Life.**

There is no wealth but life—life, including all its powers of love, of joy, and of admiration. That country is the richest which nourishes the greatest number of noble and happy human beings; that man is richest who, having perfected the functions of his own life to the utmost, has also the widest helpful influence, both personal and by means of his possessions, over the lives of others.—John Ruskin.

**The Wheel Track to Eternity.**

Time is the most important thing in human life—for what is joy after its departure?—and the most consolatory—for pain, when time has fled, is no more. Time is the wheel track in which we roll on towards eternity, which conducts us to the incomprehensible. There is a perfecting power connected with its progress, and this operates upon us the more beneficially when we duly estimate it, listen to its voice, and do not waste it, but regard it as the highest infinite good in which all finite things are resolved.—Wilhelm von Humboldt.

**Wanted the Day to Himself.**

Nothing makes us quite so weary as these elaborate, gotten-up-ahead-of-time jokes that some people stage and spring with such a dramatic effect. Our Washington correspondent told us of one of these, the other day. A man went into the patent office, last week, and said he wanted a copyright. They steered him to the right department, and he opened up like this:

"This is Saturday, is it not? Thank you. I understand that you will not issue a copyright on Sunday?"

"No, sir. That is the rule."

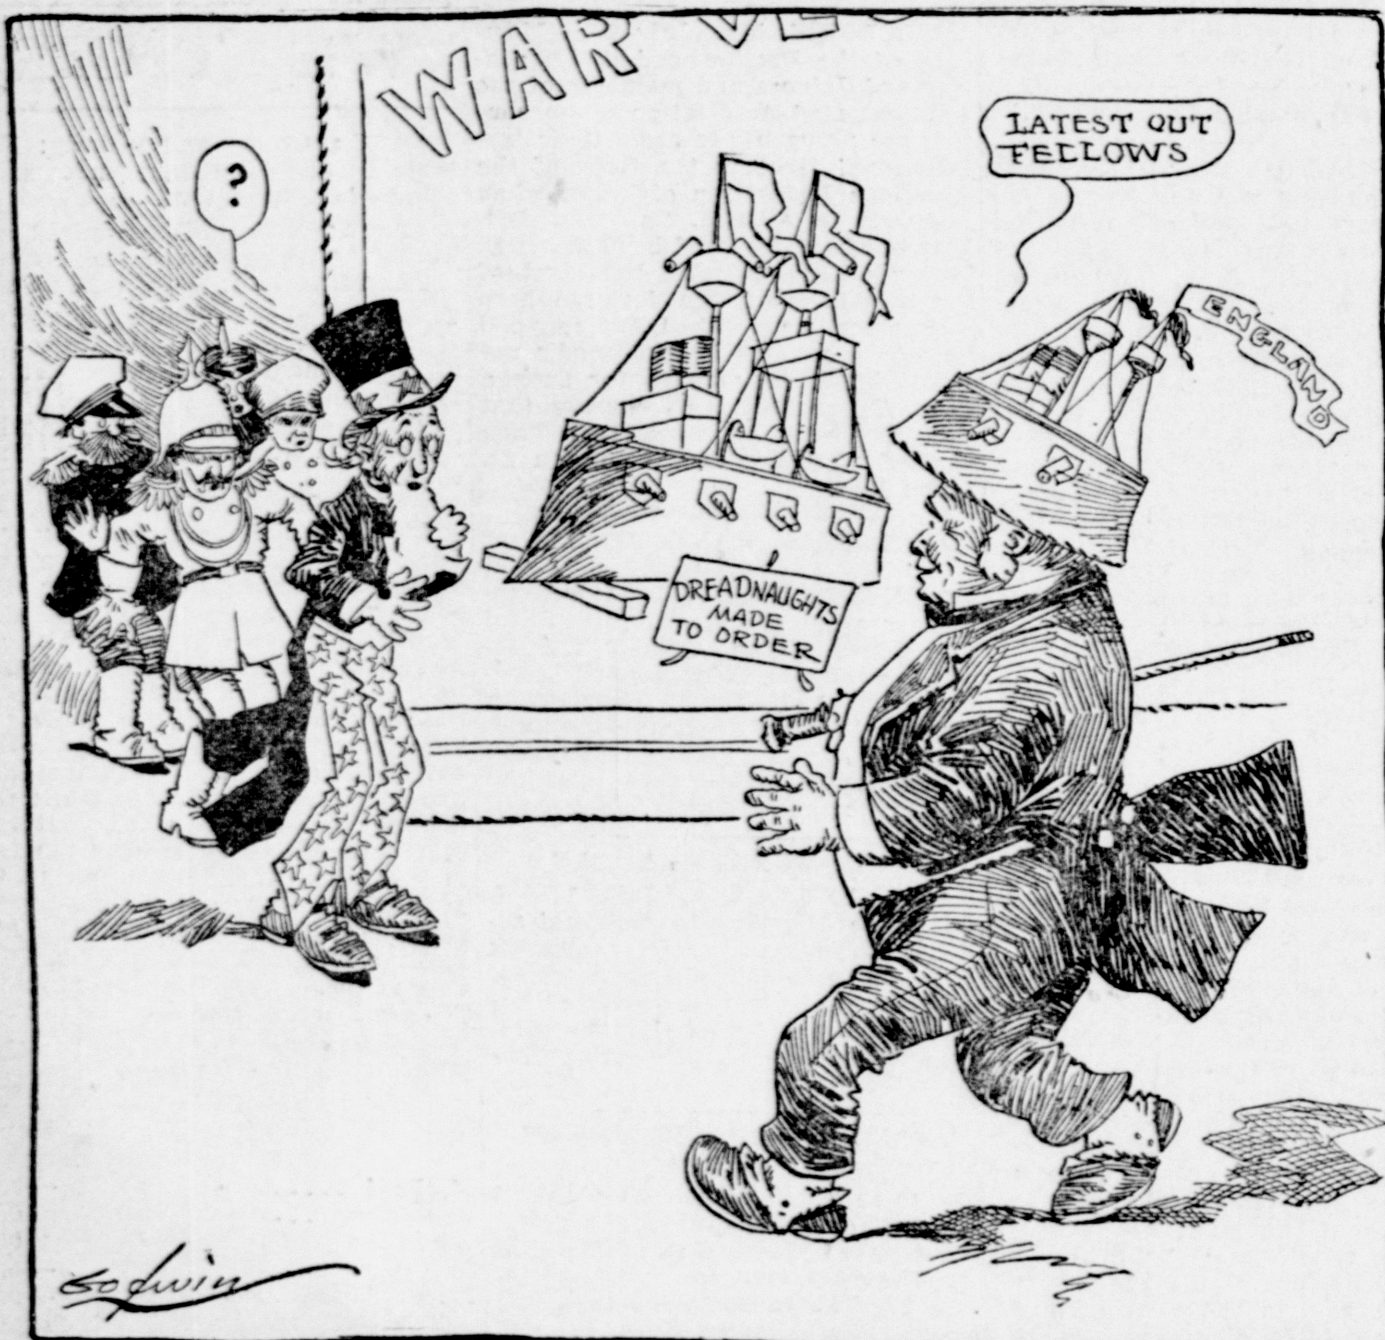

"But you will issue a copyright on any other day of the week?"

"Yes, sir."

"I'm so glad. I want to get Friday copyrighted. It's my birthday, and I don't want any other fellows using it. How much will it cost?"

## INVESTIGATION OF WRECK 'FRAMED UP'

BRIDGEPORT, Conn., July 17.—Because Coroner Wilson refuses to admit the public to his inquest now in progress into the recent wreck of the federal express on the New Haven railroad, in which fourteen persons were killed, and has apparently permitted the railway officials to dictate what witnesses shall be called and how they are to be examined, his conduct is being roundly scored. Several of those who lost relatives in the wreck threaten to appeal to the courts or the governor to have the wreck properly investigated.

### JOY RIDERS FACE SUITS.

Citizens of the North side are very much incensed over the escape of two young men from the South side, who, it is alleged, hired a rig from the Swarts livery stable and after driving the animal at breakneck speed from noon till midnight, turned it loose in the vicinity of Fourteenth and Farwell streets. The identity of the young men has been ascertained and unless a settlement is made, it is said prosecutions will be started immediately.

## NORTH SIDE —NEWS—

### PARK STORE MEN GET FORFEIT GAME

The North La Crosse and Park store baseball teams played seven innings yesterday on the high school grounds, when upon a poor decision at the plate the north side's quit. The Park store's umpiring was very poor throughout the entire game. The score was 8 to 0 in favor of Doerflingers when the trouble arose. The Park store forfeited a game to the north side's June 25 and another game will be arranged soon to decide which is the better of these two teams, possibly on the Copeland park diamond. The score at the end of seven innings was as follows:

R H E  
North La Crosse 0000000—0 3 1  
Park Store 003410X—8 9 2  
Batteries: Squires and Oeltjen-dier; Corbett and Satek.  
The North La Crosse team plays the Summit Store company next Sunday and the Park store plays Instenes and Spence Clothing company on the high school grounds.

### STRANGER'S WOUNDS ATTENDED

While in the act of jumping off the Milwaukee time freight, No. 63, at the north side depot yesterday morning about 6:30, an unknown man was thrown to the ground with such force as to cut his head severely on the depot platform. Neighbors in the vicinity of the depot carried him to a house nearby, where he had his wounds bathed and bandaged.

### GETS FINGERS IN MACHINE

While stripping some wool off the rollers of the machines at the woolen mills Saturday morning about 9 o'clock, John Morris, son of Mrs. Mary Morris, 1637 Wood street, had the fingers of his right hand badly lacerated by getting them caught between the steel rollers. The machine was quickly stopped and the hand released. John Heslip, foreman of that department, took Morris to Dr. Lueck's office where the wounded members were dressed. It was not necessary to amputate any of the fingers.

### POLICE GUARD DETECTIVE

NEW ORLEANS, La., July 17.—The entire New Orleans police force is guarding Detective Dantonio in his operations against the "Black Hand" society, to prevent his assassination. Dantonio believes he is marked for assassination by the same gang that killed Detective Petrosino of New York in Palermo, Sicily, and is supposedly responsible for a recent attempt on the life of Detective Longobardo in Chicago. Dantonio has received a letter from Longobardo saying "The Black Hand has both of us marked."

### BLAME SLUGGERS FOR MURDER

CHICAGO, July 17.—Thomas Shweitz, a detective, was mysteriously shot and killed early Saturday. It is believed he was killed by gun men with a grudge. Four citizens saw his assailants and from the description the police declare arrests will soon be made.

### "PEEPING TOM" A MONKEY

BROOKDALE, N. J., July 17.—Citizens of this village have been aroused by reports that a "Peeping Tom" has been active. An angry mob turned out to capture him and bagged a monkey.

## STEEL SPECKS IN THE FLOUR

Man of Science Announces Gravely  
That This Is One of the Causes  
of Appendicitis.

Dr. Edred M. Conner of London, alleges that appendicitis is due to white flour. Steel from the mill rollers gets into the flour. We eat this minute steel and as it goes round the bend it shunts off on the blind side. In time it stacks up like a cumb heap and irritation ensues.

A good part of the steel is absorbed, to be sure. That explains why it is not found in any of the cases operated on. But the point is, no doubt, that more than the 10-penny nail of iron allowed to each mortal is taken in and the body's magnetic equilibrium is thereby upset. The man who invented graham bread died of indigestion, but if he had drawn a magnet through it before baking he would have removed the steel particles and might have lived forever.

The wise cook today will buy a small magnet and thoroughly stir her flour with it before putting in the water and yeast. Let her wipe off the magnet every little while. The black specks that adhere are tiny bits of steel. Bread made in this way may be eaten without fear of appendicitis.

### The Harvest Moon.

The term "harvest moon" is applied to the full moon which happens on or nearest to the 21st of September, because it rises on several consecutive nights more nearly after sunset than any other full moon of the year, and is especially favorable for harvesting work in the evening.

### SILENCE GOLDEN IN IOWA

DES MOINES, Iowa, July 17.—Silence on the part of Iowa insurance companies regarding the new Iowa Co-insurance law, providing for rate reductions of from ten to forty-five per cent under certain conditions, is said to have profited the companies thousands of dollars since July 4, when the law became effective. Des Moines business men charge that the insurance companies have had a mutual understanding in regard to their silence regarding the new rate law. The reduction act applies to property worth more than \$25,000.

### Rapid Increase of Life.

As illustrating the enormous powers of reproductive increase in the vegetable world, the case of a common weed, the Sisymbrium Sophia, may be cited. This weed produces three-quarters of a million seeds, and these, if they all grew and multiplied, would in three years cover the whole land surface of the globe. Darwin calculated that the slowest breeding of all animals, the elephant, would in 750 years, from a single pair, produce 19,000,000 individuals. Rabbits would, from a single pair, produce 1,000,000 individuals in four or five years.

William Miller spent Sunday in Holmen.

Ida Leo was a visitor at Holmen yesterday.

C. J. Sleer has returned from a business trip to St. Paul.

August Anderson of the Boston Grocery House has purchased a new driving horse for his family.

Mrs. Ben Storck left today for Waupaca, to see her father, John Smith, who is ill there.

few days with her mother, who has been ill.

## FIRST REGIMENT IS AT CAMP DOUGLAS

CAMP DOUGLAS, Wis., July 17.—The rest feature of Sunday was first sight of in camp, and the boys of the First put in a lively day.

The shooting for the regimental team will be held today. The record established by the Third last week will be hard to beat, but the First has been practicing consistently on its local ranges, and expects to make a higher mark than last year, which will be necessary, to win a place on the team.

### LIVERY MEN BURNED

BATTLE CREEK, Mich., July 17.—Leo Hunt, an employee of the Harley Hamlin livery barns, was burned to death, Harley Hamlin, proprietor, is missing, eighteen horses were cremated and a loss of \$20,000 was sustained in a fire which early today destroyed the livery barns and damaged several buildings nearby.

If the fools continue in the ascendancy much longer people will be tried for sanity, instead of insanity, as has been the custom.

## IOWA WANTS RAIN

DES MOINES, Iowa, July 17.—With only light showers reported in the northeast portion of Iowa the condition of the state's chief crop, corn, is rapidly approaching the critical stage. The need of rain for the growing corn is becoming imperative and unless a general rain comes within the week farmers say the crop will be cut fully 40 per cent from the normal yield.

### FOUR GET APPOINTMENTS

WASHINGTON July 17.—The following appointments as consular assistants, as the result of examinations recently held by the state department were announced today: Charles H. Albrecht of Philadelphia, John S. Arcestrong, Jr., of North Carolina, Herbert C. Biar of Chicago, Charles W. Whittlesley of New York.

### TAFT WILL NOT ATTEND

PEORIA, Ill., July 17.—President Taft has wired the officers of the Deep Waterways association here that he will be unable to attend the waterway congress in Chicago in October.

## LINERS' RATES INCREASED

NEW YORK, July 17.—An increase of \$2.50 in the first and second cabin rates across the Atlantic, effective Monday, was announced today by the Trans-Atlantic steamship companies. The increase applies to passage both east and west. The higher rates are said to be the result of the recent seamen's strike.

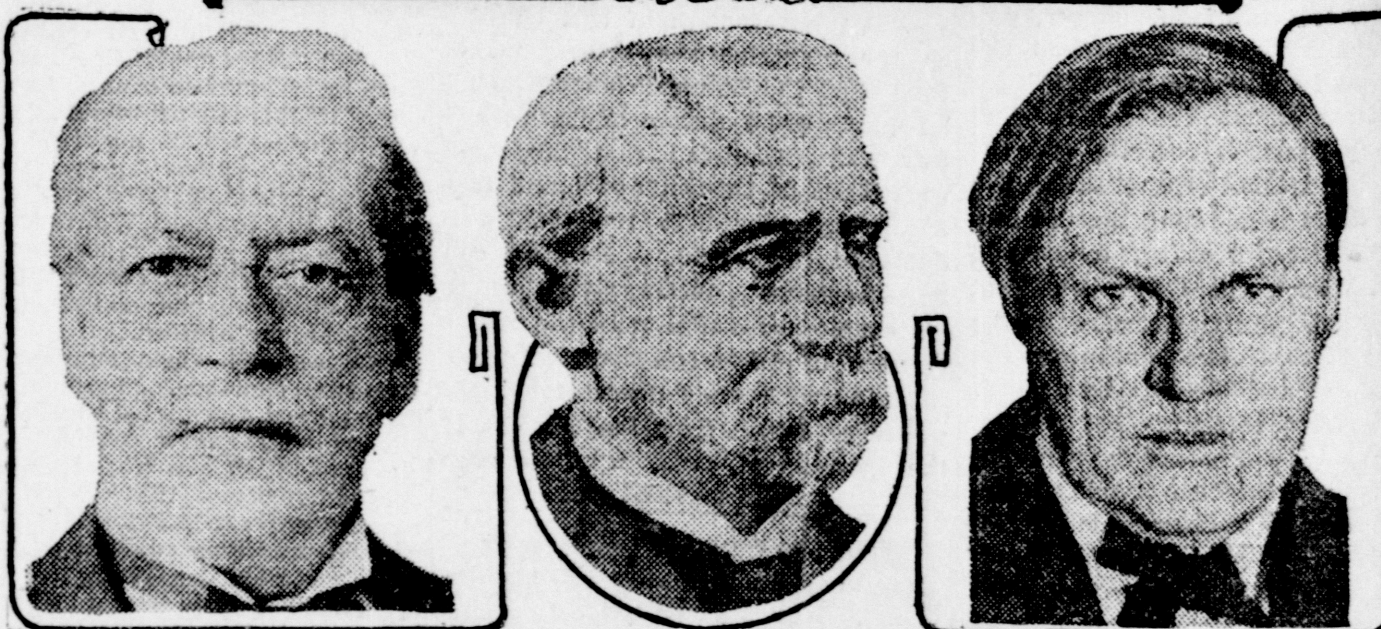

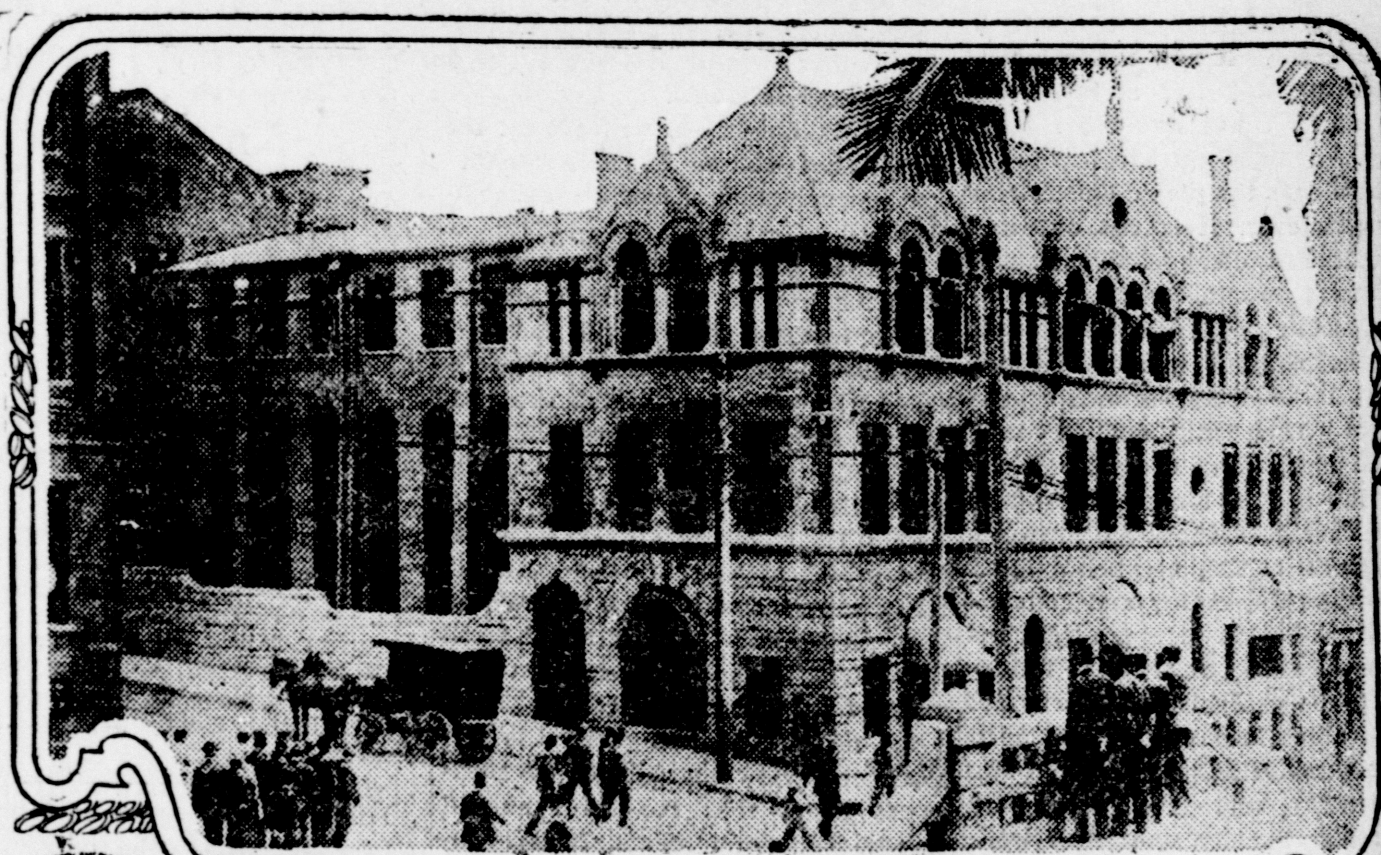

### CAR CONDUCTORS HIT

DES MOINES, Iowa, July 17.—The investigation of alleged "knocking down" by its conductors today led the Des Moines City railway company to issue orders making compulsory the registering of the receipt of transfers as well as fares hereafter. Heretofore transfers have not been "rung up," making it impossible, the officials say, to tell whether the conductors were "playing straight."

## LA FOLLETTE IS HIT BY BERGER

Socialist Congressman Says  
Senator Is Not Politically Honest; Attacks Record

MILWAUKEE, Wis., July 17.—Declaring the democrats would likely sweep in 1912 and making a bitter attack on the record of Senator Robert M. La Follette as a politician, socialist congressman Victor L. Berger, prepared to return to Washington today after walking in on 24,000 people celebrating the annual socialist picnic at Pabst park here yesterday.

Congressman Berger came direct from Columbus, Ohio, where he spoke on Saturday.

"The democrats never had a better chance," said Congressman Berger. They will not have to do much to win, but of course, we know that the democrats have a genius of making asses of themselves at critical times. This thing is certain: If they stand for making themselves a tail to the insurgents' kite they will be defeated again. They should stand for reciprocity and then take up the wool schedule."

Referring to La Follette, Berger said: "Personally he is an honest man. Politically he is not. There is no question that President Taft made a clever move in calling congress to a special session on the reciprocity proposition. La Follette walked into the trap—because the treaty was negotiated and urged by Mr. Taft. Mr. La Follette has attacked the measure and the president."

Berger declared La Follette desires to be the whole thing all the time, and is so anxious to become president he contracts the "blind staggers" when any trouble presents itself.

## DENEEN ON STAND THE THIRD TIME

WASHINGTON, July 17.—For the third successive day, Governor Deneen of Illinois, was the main witness Saturday before the senate Lorrimer investigating committee. Judge Haney, Lorrimer's counsel, wanted to know all the ramifications of Illinois policies.

At one point he suggested that democratic legislators had been disposed to vote for Lorrimer for senator because support of the waterway improvement. Deneen refused to accept this suggestion.

Deneen described republican political conditions in Chicago in 1909 when leaders expected the Illinois supreme court to hold the primary law unconstitutional.

## U. S. MANUFACTURERS STUNG

CHICAGO, July 17.—Adolph Felt, claiming to be a commissioner for the International Pure Food exposition of Paris, whose business, it is charged, consisted in inducing Americans to exhibit there and guaranteeing them a "grand prize"—for a price—being held at the instance of the postal authorities.

It is said hundreds of American manufacturers have "fallen" for his proposition and that he has gathered a harvest of thousands of dollars. The "grand prize," it is said, consisted of a brass medal, washed with gold, which was sold from \$150 to \$500. The French government is said to have interested itself in the case and have notified Postmaster General Hitchcock that the exposition site really was a dance hall and pool room.

Felt is charged with using the mails to defraud.

## POLICE CHIEFS TO CONVENE

MADISON, Wis., July 17.—(Special.)—Madison will entertain the chiefs of police on July 19 and 20, the occasion being the annual convention of the Wisconsin Chiefs of Police association. The convention will be opened on the afternoon of July 19 with the annual address of President H. C. Baker of Racine. Elaborate preparations have been made for the entertainment of the visitors. The Commercial club will entertain the chiefs at a banquet, probably on the night of July 19, and with an auto ride around the city. The election of officers and the chief business will be transacted on July 20.

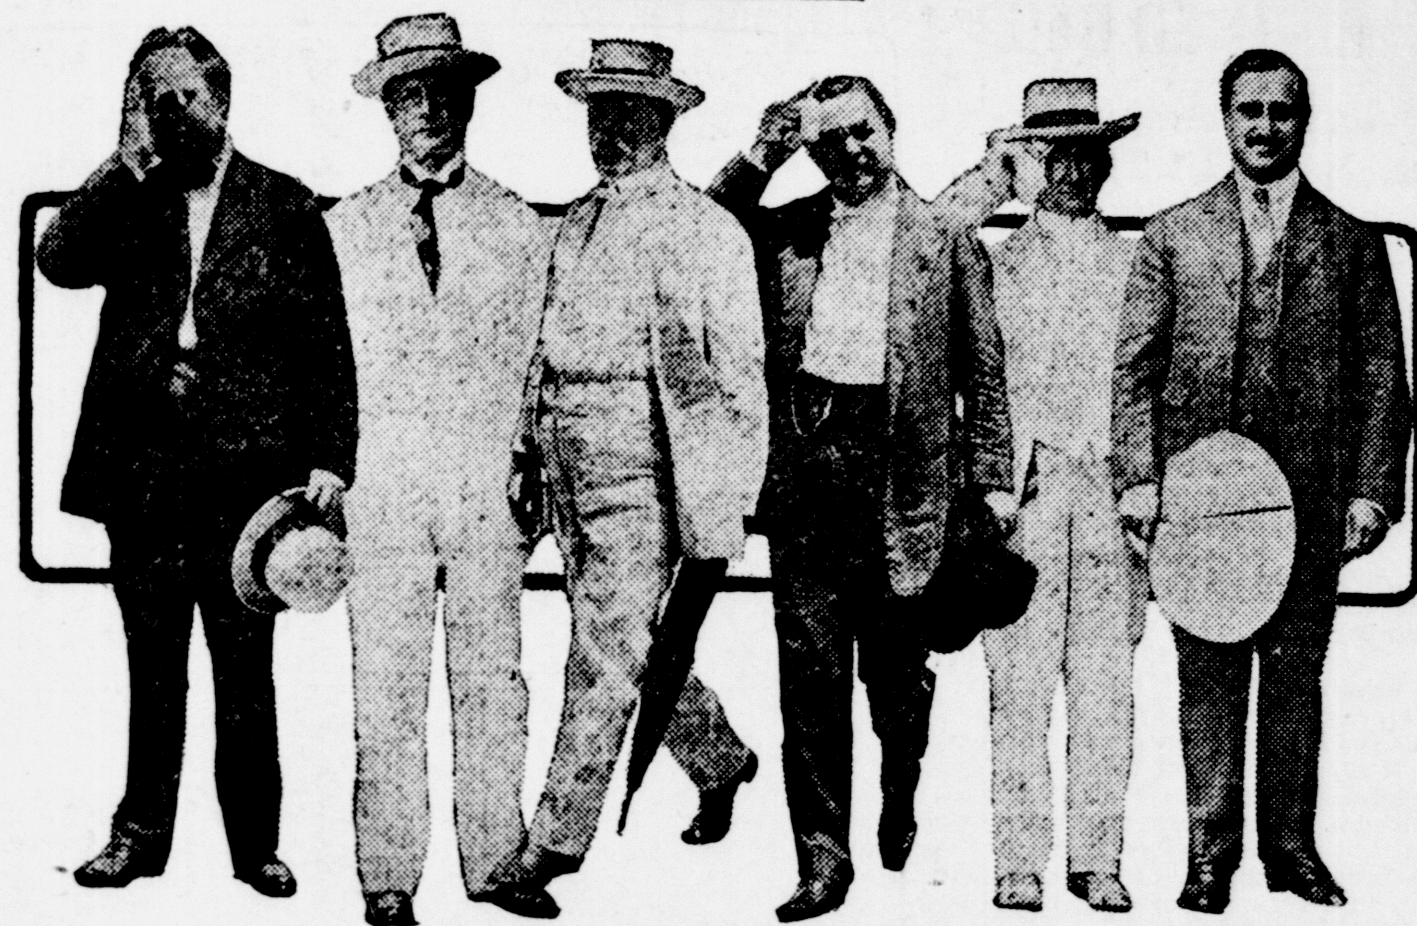

## COUNTY OFFICIAL BRIBED

OAKLAND, Cal., July 17.—Henry P. Dalton, assessor of Alameda county, is in jail after having been convicted last night of soliciting and accepting a bribe of \$5,000 from the Spring Valley Water company to reduce its assessment. Dalton was sentenced to jail. He will be sentenced Tuesday.

**ENGINEER KILLED IN CAR**  
NEW YORK, July 17.—A statement regarding the wreck on the Erie railroad at Portageville early Saturday issued from the general offices says the Buffalo section of train No. 5, while going into Portage, was side swiped by a helper engineer. Engineer Oliver was killed and his fireman seriously injured. No passengers were hurt.

Your watch needs attention occasionally if you wish it to keep time and not be injured. We repair and adjust all makes of watches. Timepieces that have been injured by incompetent workmen restored to their original condition. Adjusted to the second is our motto.

## SOCIETY

### SOCIAL BRIEFS

Mr. and Mrs. N. M. Scott and daughter, Miss Mildred Scott, have gone to White Fish Bay in northern Wisconsin, for a few weeks. They will visit St. Paul and Minneapolis, before their return in September.

Mrs. Robert C. Whelpley, who has been in Chicago the last month, returned home Saturday.

Parmlee Smith, who is in the employ of the Michel Brewing company at Aberdeen, S. D., has returned and will spend the summer with his mother at the Country Club.

Mrs. Wm. Schneet, who has been visiting friends, has returned to her home at 1318 George street.

Fred Schneet has gone to Coon Valley for a few weeks' visit.

Mrs. Schafer and her daughter, Cora, left for Sandusky, Ohio, Saturday night, where they will visit relatives.

## RED HAIR WAS NEW TO THEM

Indians for a Long Time Insisted That White Man's Hair Must Have Been Painted.

Forty years ago the Indians in Colorado knew but little of the white man, and nothing hardly of his ways or habits except from tradition. Among the people who went to settle in Colorado at that time was a man with very red hair. He and his party were thrown among the Indians, who thought at first that his hair was painted, just as they painted their own bodies and faces.

An old chief came up to him one day and looked at his hair very carefully.

"Ugh!" said he.

And then, turning to the interpreter who had the party in charge, he wanted him to ask the man where he got the kind of paint that would color, and yet not be greasy or look dabby. He was told that the man's hair was not painted, but he would not believe it. He once more walked up to the man and scrutinized his locks, running his hand through them and looking at his fingers.

The red-haired man became a little nervous, and half fancied that the chief was calculating how nice a red scalp would look hung to his belt. The interpreter, however, laughingly told the man what the chief had said.

Two or three more of the Indians then gathered around the party, and they and the interpreter had a powwow. Finally the interpreter asked the man if he would object to putting water on his hair.

He saw the Indians would not believe but that it was painted, until they saw that the water would not wash the color out. The man took some water, rubbed it on his hair, and then showed his hands to them. But it took four or five days of wondering examination to convince them that he had not found some peculiar paint, and got himself up in bright red suit of hair.

## MADERO WORKS FOR PEACE

PUEBLO, Mexico, July 17.—Francisco L. Madero, Jr., the revolutionary chieftain, who now has several incipient counter-revolutions on hand in various parts of Mexico, continued his efforts today to pacify the warring Maderistas and the loyal Diaz adherents here. As a result of Wednesday's fighting, which revised figures show, caused the death of 57 Maderistas and 17 federalists, feeling is running high. The Maderista faction swears that it will "get even."

## BERGER ON POLITICS

COLUMBUS, O., July 17.—Victor L. Berger, socialist congressman from Milwaukee, Saturday to address a monster crowd of state socialists, gave his view point on the present congress.

"Everybody is playing politics in congress," said Berger. "The stand-patters are playing politics for the trusts."

"The democrats are playing politics for the politicians of the south."

"The insurgents are playing politics for Bob La Follette."

"The working class is not represented sufficiently to play politics even if we wanted to, which we don't."

## BRYAN WOULD PUT THEM ON RECORD

Will Send Questions to the Democratic Candidates for Presidential Nomination

Lincoln, Neb., July 17.—In an effort to force every democratic presidential candidate into the open in what he believes to be the most vital questions affecting the nation, William Jennings Bryan, in the forthcoming issue of The Commoner will ask a set of questions which he wants every candidate to answer.

Tens of thousands of these questions will be sent all over the country, especially to the country press, and demands will be made that every candidate place himself on record.

Bryan asks every candidate if he favors a tariff for revenue only, if he favors free raw material and the placing of a revenue duty on only manufactured goods, if he believes that in the revision of the tariff, the element of protection should be given consideration; if he believes the three branches of the government are co-ordinate, and that each should keep within its constitutional sphere.

**Standard Oil Decision**  
He further asks if the candidates approve of the recent Standard Oil decision, wherein the supreme court "legislated" the word "unreasonable" into the Sherman anti-trust law; if they favor the repeal of the criminal clause of the anti-trust law, or if they believe congress should make it clear that all restraint of trade is unreasonable.

He wants candidates to go on record on the popular election of senators, the income tax, and asks if they believe it is the duty of the American people to promise independence to the Filipinos immediately and give it to them in the same way it was given to the Cubans; if they believe in the publicity of campaign contributions, before and after election day, and if they are willing that the source of every dollar of their campaign funds either before or after nomination, shall be made public.

**Support State Rights**  
Bryan also demands an answer to the following questions:

"Do you favor the support of state governments in all their rights; do you endorse: The labor planks of 1908, strict regulation of railroads, the Aldrich currency scheme, asset currency in any form, the establishment of a central bank, and a law compelling banks to insure depositors."

**Mankind Analyzed.**  
The man who lives quite up to the best standards of his age, of his people, of his neighbors, is not a bad man. The one who lives on a scale considerably above that of his age is a good man, no matter how much he may fall below the higher standard of an age more refined, enlightened and civilized.

## Radium Breezes for Gout.

Radium laden breezes are the very latest thing in the treatment of gout. One of the papers read at the German Medical congress was on the application of radium in the aerial state. Radium "emanatoria" have been established in Berlin and at Bad Homburg, and now Ems is to have one. A special apparatus in which radium is placed in a current of air is fixed in a room and all the patients have to do is to sit in the room and talk or read newspapers, or play draughts; the radium in solution in the air does the rest and affects the blood through the lungs. This treatment is especially recommended for all gouty ailments.

## Surely Queen of All Hens.

A certain industrious hen, interested in the welfare of Petaluma, Cal., has gone so far in her efforts to spread the renown of the city of eggs and broilers that she recently placed four yolks in one shell. Her zeal was discovered by a firm of egg merchants, Whitcomb & Baker. The egg was slightly larger than normal. It looked like a regular egg until a candle gave an X-ray view of four small yolks. A hunt is still being made to locate the hen. In the same shipment were a number of other eggs containing two yolks, but the egg with the four yolks is said to break all records.

## VIROQUA BEATS FAST ELK TEAM

For the first time this season the Elks' baseball team met defeat in a regular game. Four to two was the final score in the contest with Viroqua at that place yesterday and all of this was despite the fact that Larson, the star twirler for the Antlers, allowed only three hits. They were pounded out at an opportune time and followed by a couple of walks succeeded in bringing in the winning runs.

A large delegation of local Elks visited at Viroqua yesterday, a special entertainment having been prepared for them by the Viroqua members of No. 300.

## CITY PICNIC TO BE BIG EVENT

The city picnic this year, which is to be held next Thursday, promises to eclipse anything in the way of a municipal outing held here in many years. All details as to refreshments, games, etc., were arranged at a meeting of the committee this morning. Fred H. Easton has donated the use of his splendid pleasure boat to carry the officials to Eagle Bluff where John Salzer has thrown open his beautiful summer home, "Ferndale" to the politicians.

## DETECTIVE TO TELL OF STOKES LETTERS

NEW YORK, July 17.—When the police inquiry into how the letters written by W. E. D. Stokes and a dozen other millionaires to Lillian Graham disappeared from the Varuna after the Graham girl and Ethel Conrad were arrested for shooting Stokes is resumed tomorrow, "Mike" Bensund, the detective who is alleged to have offered a package of these letters for sale, will be called. Bensund has been a close friend of John Bloom, superintendent of the Varuna, who has sworn he says city detectives carry the Stokes letters away from the Graham apartment. On his story of how he got the other letters will depend whether the district attorney will prosecute the city detectives who have been working on the case and who are alleged to have sold the Stokes letters to A. H. Gleason, Stokes' lawyer.

MRS. McMANIGAL IN TROUBLE

## LABOR LEADERS REFUSED BAIL

Alleged Slugger's Murderers May Wait Trial in Jail at Chicago

CHICAGO, July 17.—That Simon O'Donnell, president of the Chicago Building Trades Council; Thomas Kearney, James Garvin and Maurice Enright, all business agents for the United Association of Plumbers, in their jurisdictional final fight with the steamfitters, charged with the murder of Vincent Altman, a labor slugger, must remain in jail pending trial, was forecasted in the preliminary decision of Judge Honore today.

The prisoners demand that, pending trial, they should be released on bond. Judge Honore, in a lengthy decision today, ruled that American courts have not established a rule on the question. The western courts held that the court had a right to inquire into the merits of the case, he said, to determine whether bond should be granted. The eastern courts held that the court had no such right. The Illinois courts, though they have never ruled definitely, have expressed the opinion that the judge may inquire into the merits of the case, giving the defense an opportunity to show that the state's charge was unreasonable, though it must decide that the fact that the grand jury has returned indictments constitutes a strong presumption of guilt, which must be overcome by the defense before bail may be granted.

Judge Honore therefore refused to grant bail unless there has been argument to show how far he should go into his inquiry as to the guilt of the prisoners.

State's Attorney Wayman objected strenuously to this ruling, declaring he would be forced, practically, to reveal the grand jury notes to show his case which, he said, was in violation of the law.

## LINER RUNS AGROUND

FIFTY PASSENGERS THROWN INTO PANIC; TUGS GO TO RESCUE; SHIP MAY BREAK IN TWO

BOSTON, Mass., July 17.—The liner Halifax of the Plant line from Halifax to Boston, with fifty passengers on board, ran aground in the fog off Georges Island near Boston light today, throwing the passengers into a panic.

Lieutenant J. W. Manley, a passenger on the Halifax who arrived on a tug, said there was danger of the ship breaking in two. Five tugs were sent to the rescue.

Captain Alfred Ellis succeeded in calming the frightened passengers who had run up on deck when the ship struck. They were brought ashore in tugs.

## JAPANESE PAPERS CONDEMN TREATY

TOKIO, July 17.—Charging that it completely isolates Japan and that the United States has gained a decided advantage as a result, several Tokyo newspapers today contended their strong condemnation of the revised Anglo-Japanese treaty. In eliminating England as a hostile factor in the event of war between Japan and the United States, the latter, so the papers declare, has outplayed Japanese diplomats. Government and conservative organs continue to look upon the new treaty with satisfaction. In many places, however, the question is asked: "Will Japan enter upon a greater naval and military policy as a result of this isolation?"

## NORMAL SUMMER SCHOOLS GROW

MADISON, Wis., July 17.—(Special.)—A remarkable five year growth of the ten normal summer school is shown in a statement by Secretary William Kittle of the board of normal regents today. The statement follows:

Enrollment in 1907, 763; 1908, 1128; 1909, 1743; 1910, 3368; 1911 3150.

The sudden expansion in 1910 was due to the minimum qualifications law of 1909 which required all teachers entering the schools for the first of September, 1910 to take six weeks of professional training.

## ELIHU ROOT WOULD REGULATE SENATORS

WASHINGTON, July 17.—"All honest senators should accept drastic and regular regulations in order to prevent contamination," said Elihu Root (Rep., N. Y.) in discussing the campaign publicity in the senate today. "That much corruption now existed," he added, "was indicated by what had already taken place in the senate."

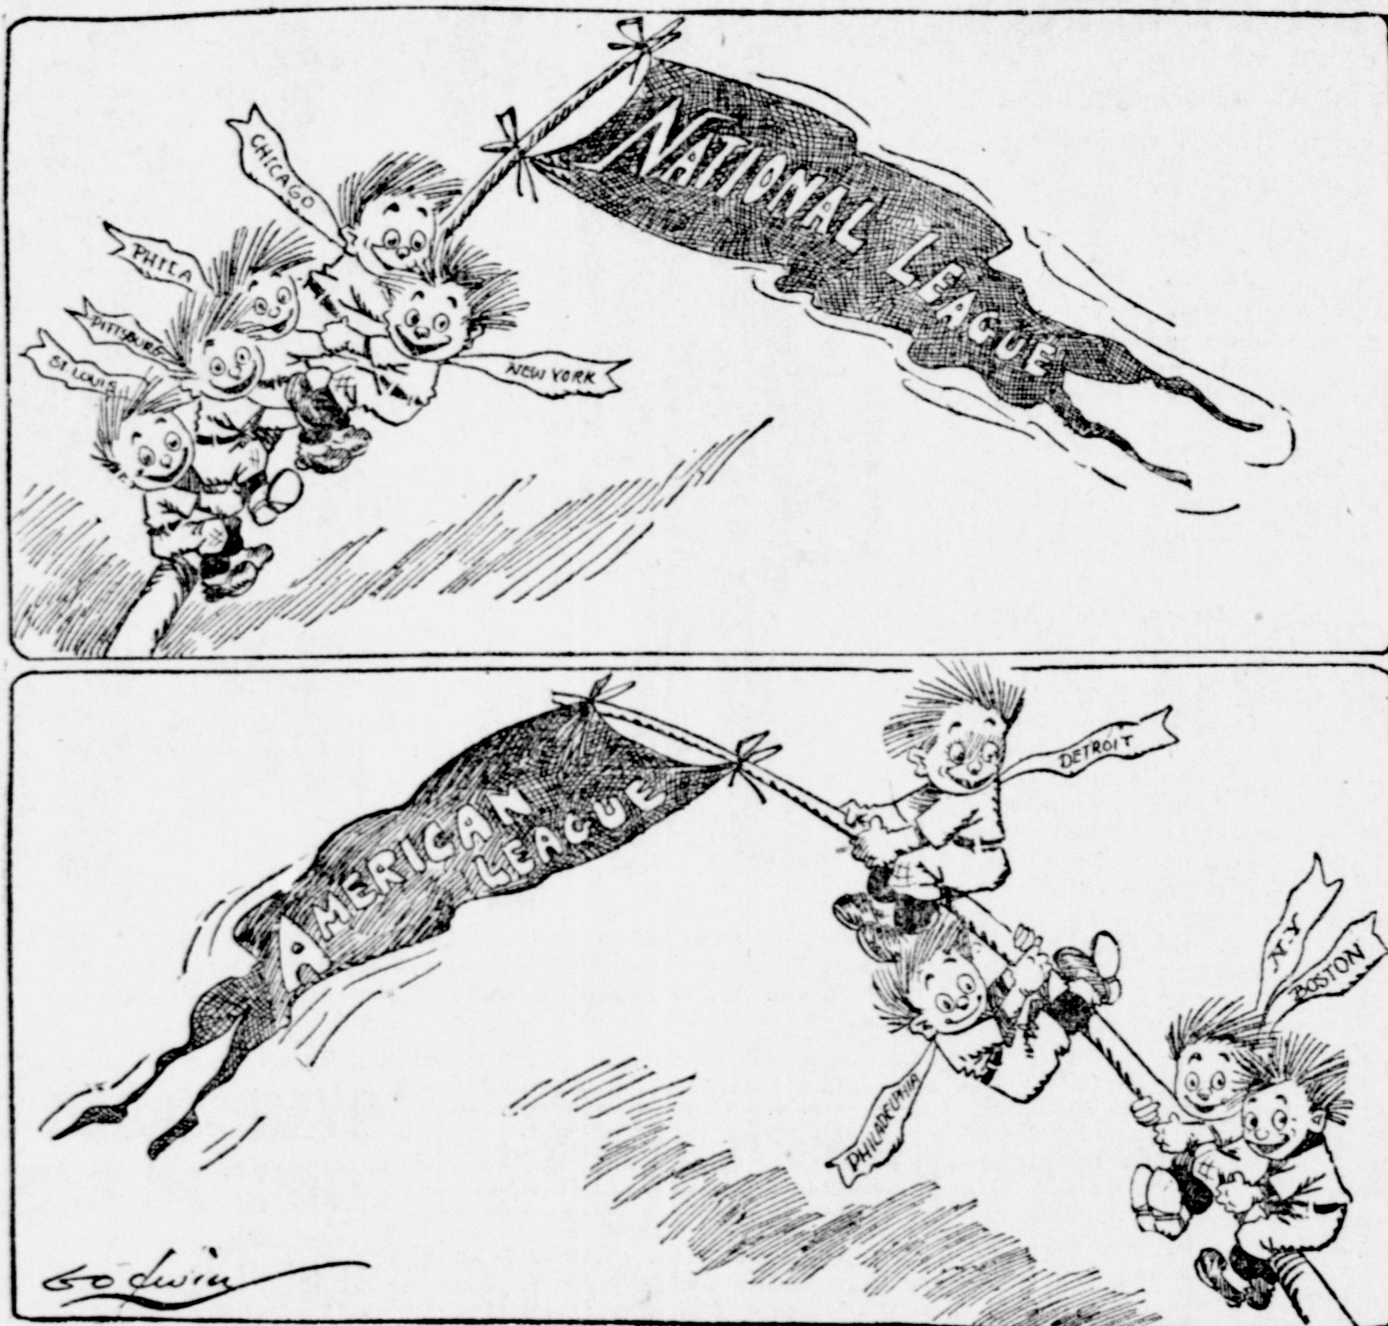

The senate adopted an amendment by Burton (Rep., Ohio) requiring accounting from all those to whom candidates have delegated authority to make pledges or promises.

Senator Reed (Dem., Mo.) cited the election of Senator Stephenson of Wisconsin as an example of his contention that publicity did not prevent the use of enormous sums in elections.

Senator Burton declared that the proposed law was a great improvement on existing statutes and practically commended the inclusion of primaries.

## PROMINENT GENOA CITIZEN IS DEAD

President of Genoa State Bank and City Treasurer, Died Last Evening

Albert Zaballo, one of the leading citizens of Genoa, died at his home at 6 o'clock last night after an illness of several weeks. Death was due to apoplexy.

Zaballo who was 53 years of age, was born in Italy and came to this country with his parents when 18 years of age. He later settled at Genoa where he soon became interested in the mercantile business and became the leading merchant of that city. He has held the position of city treasurer for several years as well as being president of the Genoa State bank.

He is survived by his widow, two sons and five daughters. The funeral services will be held at the St. Charles church at 9 o'clock Thursday morning, and burial will be made in the Catholic cemetery. Rev. Father Kramer will officiate and the Catholic Knights of which society he was a member, will attend in a body.

All parties having claims against the county will file bills on or before Thursday, the 20th of July.

## LONG SUFFERING ENDS IN DEATH

Frank Bailey, Confined at the St. Francis Hospital for Nine Years, Dies Saturday

After nine years illness during which he has been confined at the St. Francis hospital, Frank A. Bailey, aged 23 years, died there Saturday night at 9:15 o'clock. He was formerly a resident of Sparta, Wis. While hopes for the recovery of the young man were never strong, yet his death will be grieved by the many friends he had formed during his long stay at the institution.

He was a pathetically patient sufferer and the calm manner in which he accepted the rule of fate which made him an invalid, won the sympathy of all with whom he came in contact.

Both of his parents are dead and it was to the generosity of wealthy La Crosse people that the fund was maintained which allowed him to remain at the hospital. Almost daily he was the recipient of beautiful flowers which he generously shared with other inmates.

To the sisters at St. Francis hospital goes much credit for making his life there bright. So cheerful was he during his illness that the title of "Little Ward Pilot" was bestowed upon him by other patients.

The funeral services were held at 8 o'clock this morning and he was laid at rest in the Catholic cemetery.

## JUDGE'S DAUGHTER ELOPES

NEW YORK, July 17.—Former Judge Samuel Parsons McConnell of Chicago and New York, was hardly reconciled today to the elopement of his daughter, Eleanor and Cortland Van Brunt, Harvard graduate and one of the heirs to the Van Brunt estate in Kansas City. He said that he had no real objection to Van Brunt, but thought that because of his youth and his failure to map out a career for himself, he should have waited a year or so. The couple were married in Newburgh, May 5, and Judge McConnell received the news yesterday. They will live in Kansas City.

## TAFT MAKES NOMINATIONS

WASHINGTON, July 17.—President Taft today nominated: To be collector of internal revenue, district of Louisiana, Walter Y. Kemper; to be assistant attorney general, William W. Wemple of New York; to be postmaster at New Orleans, Alexander F. Leonhardt.

## SAYS GARFIELD IS FOR SENATOR 'BOB'

Norris Declares Son of Martyred President May Run for the Senate

WASHINGTON, July 17.—"The supporters of James R. Garfield will be behind La Follette for the presidency in 1912," declared Representative George W. Norris (Rep., Neb.), progressive leader of the house, today, discussing a widely circulated story that Garfield would be the candidate of Ohio progressive republicans in the next national convention.

"This is the first time I have heard of any Garfield boom," he said. "Political sharps today declared that the plans of Garfield's friends included his nomination for governor of Ohio for 1912 and his senatorial candidacy against Senator Burton in 1914."

## POLICEMAN SHOTS RUNNER

EVANSTON, Ill., July 17.—While women of this exclusive Chicago suburb stood on their porches and watched the chase, Police Sergeant Arthur Johnson shot and killed an alleged bicycle thief who refused to halt upon his command. The body was taken to the morgue to await identification.

## CITIES GET POSTAL BANKS

WASHINGTON, July 17.—That foreigners who formerly sent their savings to Europe for investment may be induced to bank in this country, is the hope of the postoffice department and the reason for the plan announced today for postal savings banks in New York, St. Louis, Boston, and Chicago, with instructions printed in all languages.

## MEXICAN TROOPS DISBAND

## GERMAN EXPRESS WRECKED

FRANKFORT, Germany, July 17.—The Basle to Frankfort express was derailed and went into the ditch today near Muhlheim. Eight persons were killed and fourteen seriously injured.

## LOCAL STUDENTS HAVE INCREASED

Census Figures Show that the Attendance of the City Schools Is Growing

The school census figures for the year of 1911 have been compiled and show an increase of four hundred and fifty eight, over the figures of last year. Louis L. Brown, who has been in charge of the work, this morning announced that there may be a few names that have not been procured but that the list is practically complete.

The figures show that there are more girls attending the schools of La Crosse than boys but the difference is not nearly as great as is usually the case. The total number of children attending school in this city is 9,782.

Following are the statistics:

Wards.	Boys.	Girls.

## TELLS OF JACK POT

DULUTH MAN TESTIFIES IN LORIMER INVESTIGATION REGARDING \$100,000 SLUSH FUND

WASHINGTON, July 17.—Under the name of a "jack pot" the alleged \$100,000 Lorimer slush fund bobbed up in the hearing before the senate investigating committee today when William Burgess, an electrical contractor of Duluth, Minn., testified. He named Rudolph, John and Carl Weyerhaeuser, C. F. Wiehe, secretary of the Hines Lumber company, and a "young man from Canada named Johnson" as being fellow passengers with him in a smoker on the Winnipeg flyer between Duluth and Virginia, Minn., on the evening of March 8, 1911. The party finally dwindled out until only Burgess, Mr. Johnson and Wiehe were left.

Burgess said he did not know who Wiehe was at that time. "I think the conversation drifted around to the election of Lorimer," he said, "when I said it was generally believed that Lorimer had spent a great deal of money in his election."

Wiehe said: "You don't know very damn much about it. Lorimer did not spend any of his own money for his election, but a jack-pot was raised for that purpose. I know what I'm talking about because I subscribed \$10,000. Wiehe said the jack-pot amounted to \$100,000."

Senator Kern, (Dem., Ind.) asked Burgess if he did not think it remarkable that a man would talk to a stranger about having taken part in the bribery of the legislature.

"That is the peculiar part of it," answered Burgess. "That was why the conversation made such a strong impression upon my mind."

## DEATH CUP ABOLISHED

LANSING, Mich., July 17.—The public drinking cup, "the cup of death," has been abolished in the state of Michigan. This was the order issued by Secretary Dixon of the state board of health today. The health board claims the authority to issue such an order and have it enforced under their general police powers.

## METEOR SCARES HUNDREDS

PINE LAKE, Wis., July 17.—A great meteor, thought at first to have been an aeroplane on fire, flashed across the sky near here and buried itself in the ground. Hundreds of people were terrified for a time.

## FIRST LAUGH IN YEARS

SAYS MR. JAMES McARTHUR, OF MADISON, WIS.—HAS SUFFERED AGONIES FROM RHEUMATISM  
NOW ON ROAD TO RECOVERY, THANKS TO THE WONDERFUL TREATMENT OF

## THE ELECTRO-RADIAL INSTITUTE

Among the many testimonials which have been heard from during the past week the following statements are only quoted:

Mr. James McArthur, of Madison, Wis., who has been afflicted for years with rheumatism, surprised everyone in the reception rooms 213 South Fifth street, when he let out a hearty laugh and remarked: "Excuse me, but that is the first inclination I have had to laugh in years and could not resist the opportunity. I have suffered untold agony with rheumatism, been given up several times, but this is the first time I ever felt like I was going to get cured. I have improved 50 per cent in the two weeks and advise everyone to take it for rheumatism."

D. B. Odell, 241 Fox street, who has been ill for two years with kidney, heart and nervous trouble, says: "I never felt better since I began." He also said that he had heard from other patients that R. E. Murphy, 107 Richardson street, was fast recovering from stomach trouble under this treatment.

Mr. J. W. Deschamps, of 125 Main street, St. Paul, Minn., was told he must undergo an operation for appendicitis. He visited the Electro-Radial Institute, where the diaphanoscopy was applied and brought into view his every organ, the trouble was easily found and removed. Several came to be examined, thinking they had appendicitis, when gall stones were plainly revealed and removed. Therefore, to the thousands who have doctored and taken medicine for years without benefit, probably because they were treated for the wrong disease, the opportunity afforded now is a boon indeed. Go and learn the true cause of your sufferings and your cure is only a question of intelligent treatment properly, modernly and skillfully applied by the most eminent specialists. These doctors are the foremost scientists and investigators of the day. Their fame is a synonym for all that is far-seeing. They do with ease the seeming impossible which others have tried in vain. They are the most shining example of the saying that "success is simply doing something far better than anyone else has done."

Examination and consultation free for only a few more days.

Hours from 9 a. m. to 8 p. m. and Sundays 9 a. m. to 1 p. m.

Electro-Radial Institute, 213 South Fifth street, La Crosse, Wis.

## CONDITIONS FINE FOR ROWING RACES

PEORIA, Ill., July 17.—Placid water and weather conditions which the oarsmen declared to be almost perfect, were offered to oarsmen of four cities who competed this afternoon in the fifth annual regatta of the Central States Amateur Rowing association. Wind which yesterday churned Peoria lake into a foam, died down. The junior events today began at 2 p. m. with the single sculls. Five more events, with the six-oared barge at 5 p. m., will close the day's program. The senior events will be held tomorrow.

## SOLDIERS RETURN TO FORT

INDIANAPOLIS, Ind., July 17.—For the first time since the Tenth regulars left for the Mexican border, two months ago Fort Benjamin Harrison was fairly alive with soldiers today. Eighteen hundred national guardsmen began arriving this morning for the annual encampment and this afternoon a tented city had risen about the regulars' deserted barracks. Company K, Second infantry of Newcastle, was the first to arrive.

## U. S. SENATOR ENTERTAINS

FAIRMONT, W. Va., July 17.—West Virginia hospitality today is exemplified in the home of United States Senator Clarendo W. Watson, who this morning is entertaining six of his colleagues, including Senators Chamberlain, Johnson, Bailey, Kern and Taylor, at an exhibition of the Watson show horses.

Tonight a supper to which the democratic members of the West Virginia legislature are invited, will be given on the beautiful lawn of the farms.

The general public is invited to this afternoon's affair.

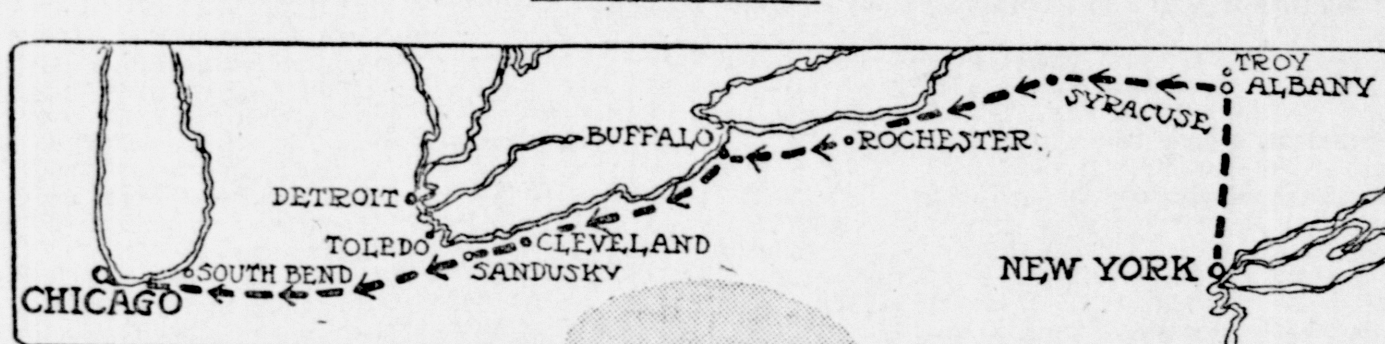

## RELIGION SCHOOL TO OPEN

MADISON, Wis., July 17.—(Special.)—With an address of welcome by Governor F. E. McGovern and addresses by Dean H. L. Russell, Rev. R. H. Edwards, Rev. M. G. Allison and Prof. George C. Sillery, the first summer school of religion will open Monday at 2 p. m. at Association hall, university of Wisconsin, under the auspices of the University Pastors' association. The course will extend from July 17 to 28.

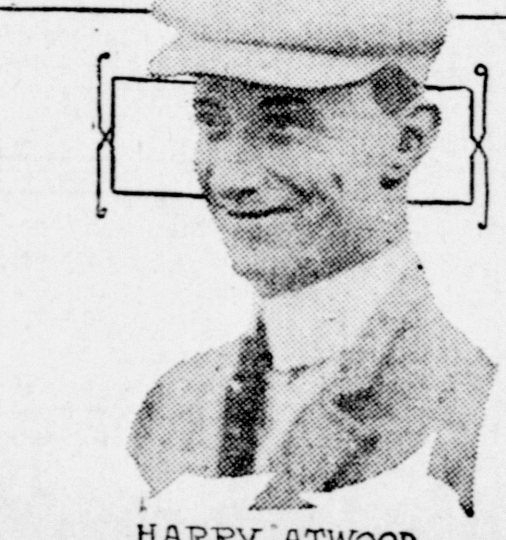

## HOOSIER AUTOS IN IOWA

ST. LOUIS, Mo., July 17.—Twenty-four automobiles entered in the four states endurance run from Indianapolis left for Quincy, Ill., today after having remained here over Sunday. They will enter Iowa, the fourth state, at Keokuk and cross the Mississippi again at Deavenport for Chicago.

## TO FLY FROM NEW YORK TO CHICAGO

Aviator H. M. ## AMERICAN RACER KILLED

PARIS, July 17.—E. N. Naud, the only American entrant in the Sarthe automobile circuit races which are to begin in a few days, was killed today near Tours while trying out his Ford car. Naud, it is estimated, was going at more than 75 miles an hour when the car left the course and overturned.

Girls, don't be rash in your infatuations; when the gilt wears off the shallow little gods, you are sure to discover that they are merely brass after all.

# A Million More People Can now afford Automobiles

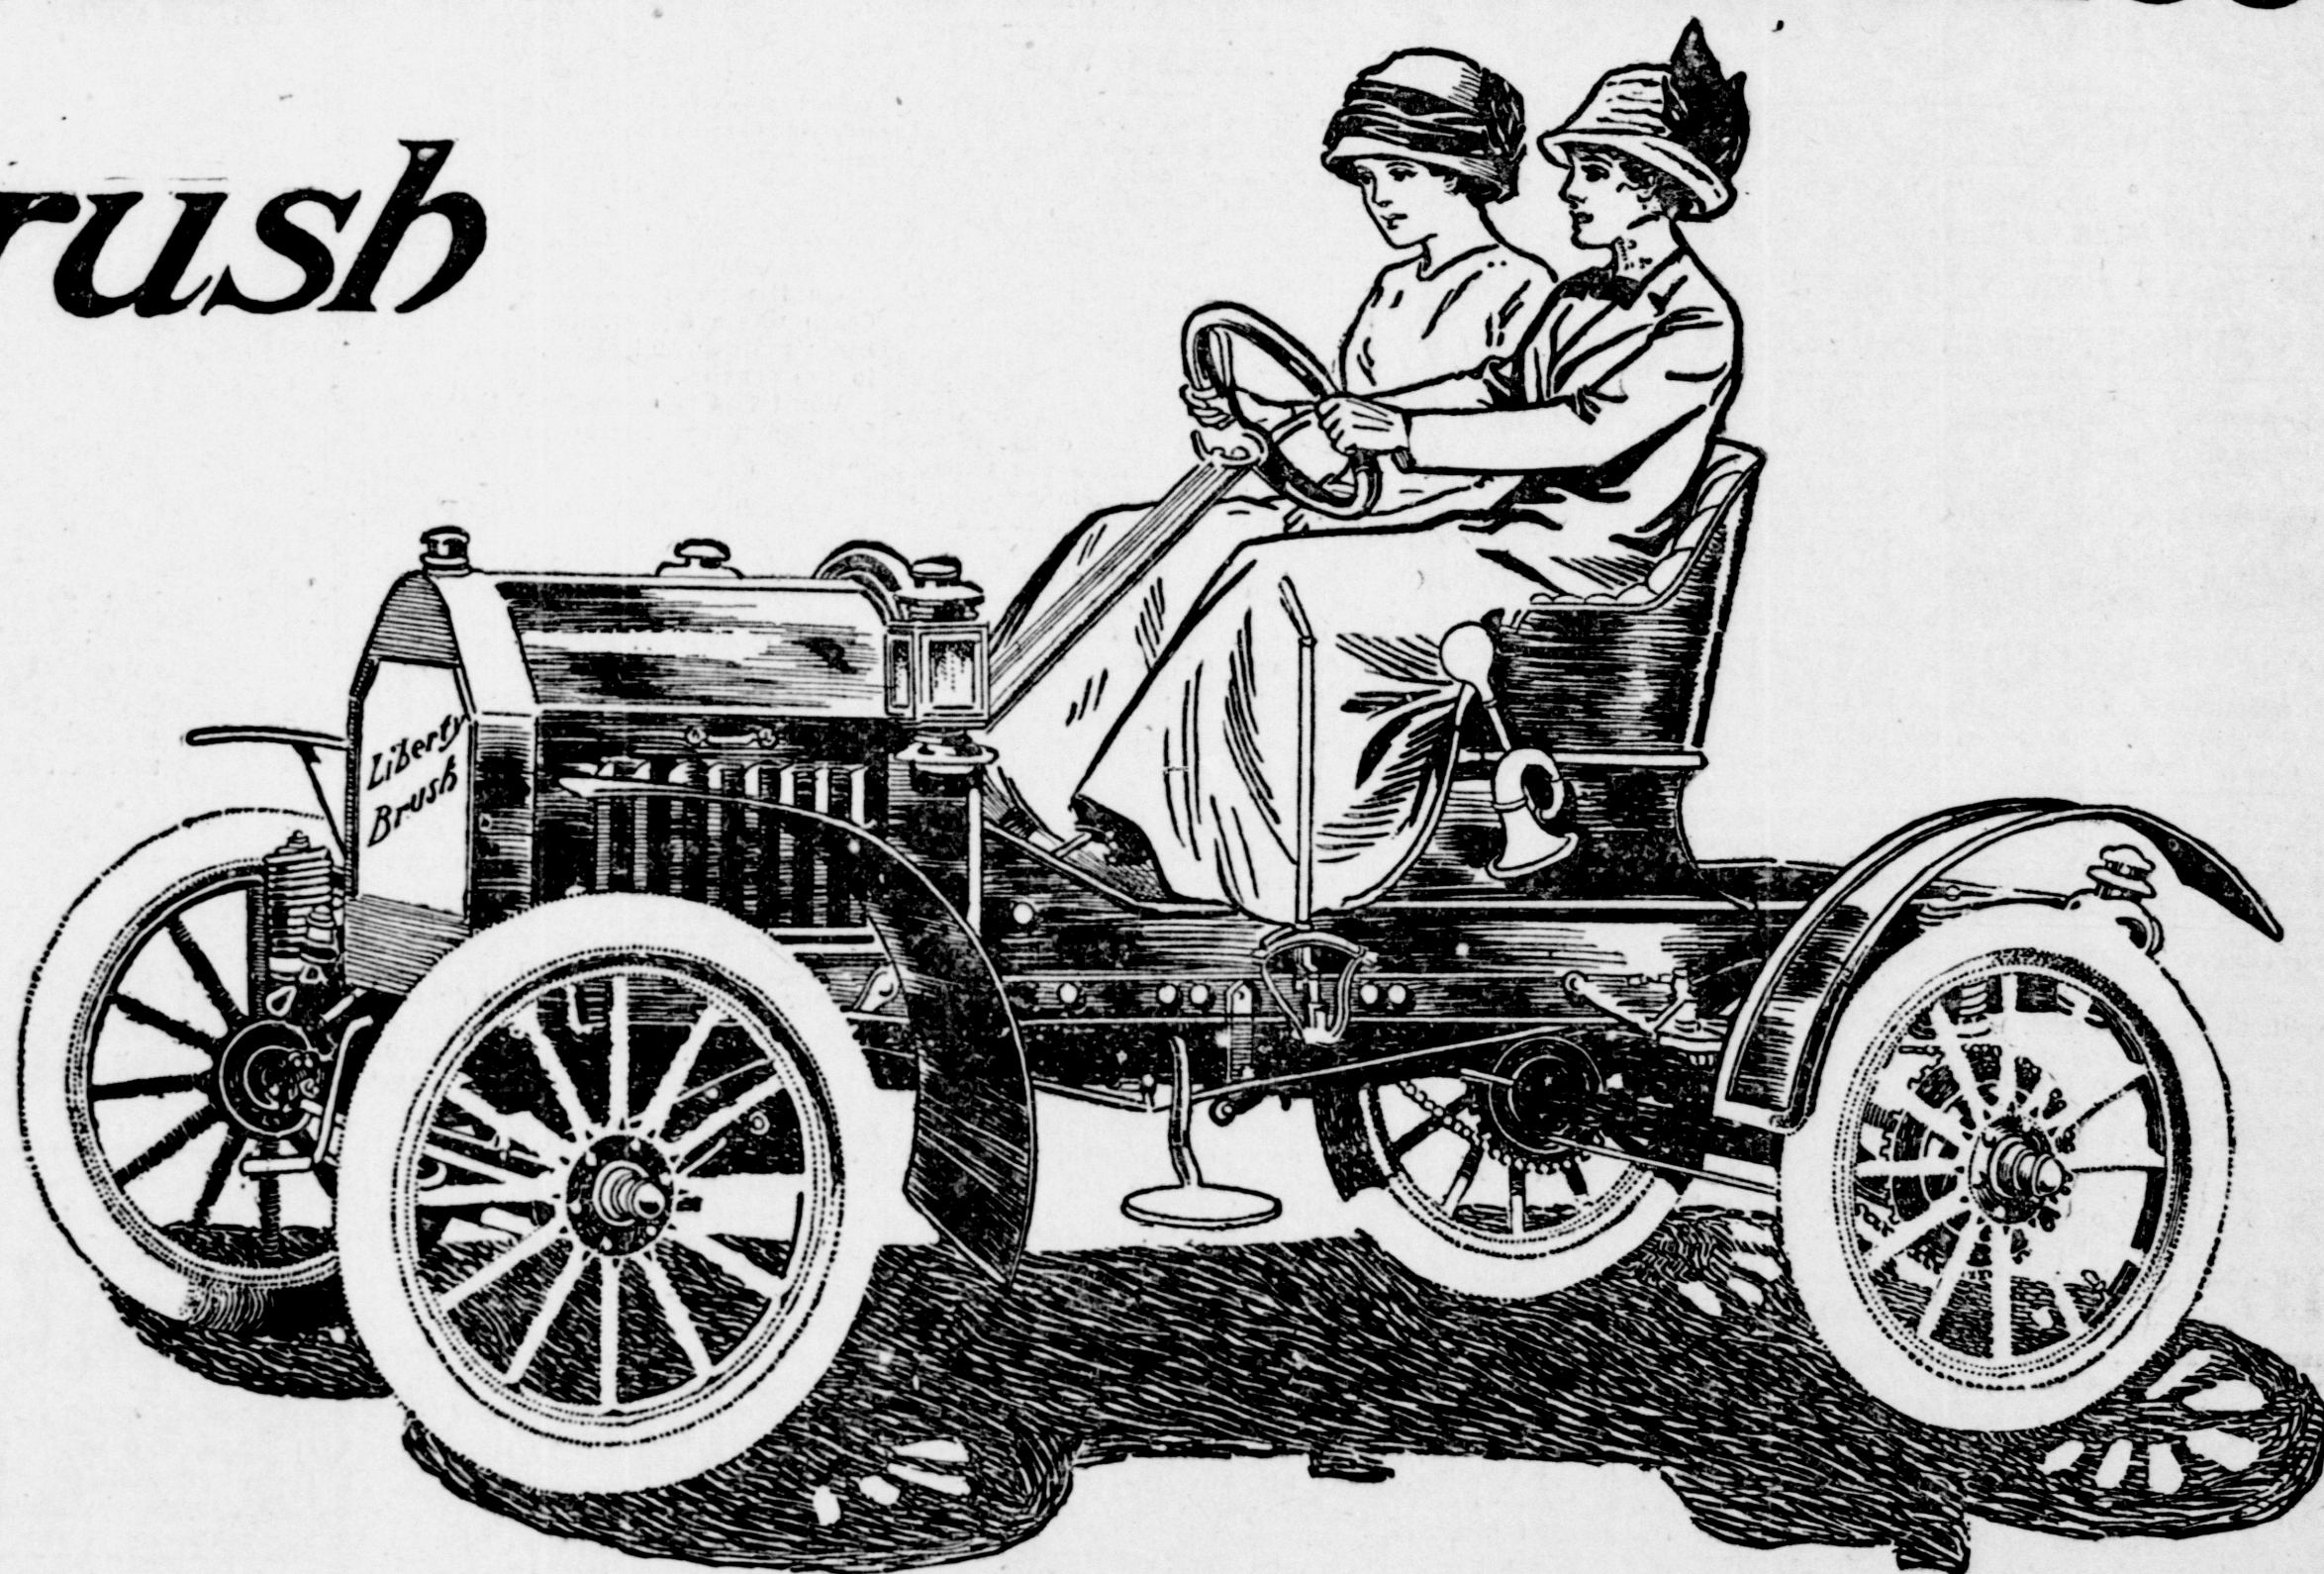

## The Liberty-Brush

# \$350

at last has brought the automobile within the reach of every man.

A million buggies are sold in America to horse owners every year.

All these owners can now use a motor car at less cost—and do more work in less time.

## It only costs to run—One cent a mile—cheaper than a trolley

**THOUSANDS** have been waiting for the day when they could afford a motor car.

**That day is here for a million more people**—people who have been buying buggies and driving horses both for business and pleasure.

**It is here for thousands of other people** who do not use horses, who depend on public conveyances, submit to unnecessary discomforts and delays, and suffer consequent loss of time and business.

**Every horse owner can buy and maintain** a Liberty-Brush automobile, costing \$350, for less money than it costs to keep a horse.

**The others—if they are compelled by business** to cover large areas, earning more money the quicker they cover their territory—will find the Liberty-Brush cheaper than any public conveyance, cheaper even than the trolley. They can widen their territory, and increase their earning powers.

**The pleasures of motoring are too well known** to need more than mention. The Liberty-Brush opens this field of recreation and healthful pleasure.

**This is not extravagant talk. It is fact.** Consider it carefully in your own case.

**The Liberty-Brush is not a low-priced imitation** of a big motor car—it is a real automobile—a machine designed and built according to accepted best standards. The forerunner of the Liberty-Brush mechanically is the successful Brush runabout, thousands of which are giving satisfactory service.

It has a long stroke vertical motor of 10-horsepower, thermo-syphon cooling system, multiple-disc clutches, selective transmission, double side-chain drive, bevel-gear differential, artillery wheels, internal expanding brakes, pneumatic tires and shock-absorbing devices under Truffault-Hartford patents. In every particular the Liberty-Brush is an automobile at a price easily within reach of EVERYMAN.

**This car is manufactured by the Brush Division of the United States Motor Company**, the largest producers of high-grade automobiles in the world. By large quantity buying and manufacturing, the Liberty-Brush is made to sell at a price hitherto considered impossible for a standard automobile.

**The full guarantee of the United States Motor Company** goes with every Liberty-Brush. The benefit of experience in making the Brush runabouts is utilized in the construction of the Liberty-Brush, and the price of the car, \$350, leaves a profit which would be ridiculously small were it not for the vast number produced.

**The designers of this car**, which has proved the biggest gun ever fired in motordom, know that it is capable of

running 35,000 miles. They are confident of this if the car is given reasonable care, for Past records of Brush automobiles show what you may expect of the Liberty-Brush.

**Think of running once-and-a-half** around the globe in your own car—think of the many months, years, during which you will get capable service from your Liberty-Brush. You can learn to operate it in fifteen minutes.

**As to cost—in many official tests** and in the hands of owners, the Brush has proved most economical. We know that many Brush cars have run more than 25,000 miles at a cost of 1 1/5 cents a mile, or six-tenths of a cent per mile per passenger, including all maintenance charges.

**On the day when the Liberty-Brush** arrived, the Fourth of July, 109 Brush runabouts in 109 different cities ran 100 miles, and their performances proved the claims made for the Liberty-Brush.

The fastest car averaged 28.17 miles per hour and the slowest, 11.1.

The highest economy average was 48.4 miles per gallon, and the lowest average was 15.38.

The lowest oil consumption was 1 gill for 100 miles and the highest was 2 qts.

**Now consider this:**

The average speed was 18.9 miles per hour. The average mileage on one gallon of gasoline was 25.9 miles. The average consumption of oil was 609 miles per gallon.

**As to reliability: Only six adjustments** were made, three to carburetors and three to spark plugs.

**At this cost of operation and this** initial cost, who can say "I cannot afford an automobile"? Mercantile concerns can see in this an economic business proposition for salesmen, solicitors, inspectors, or for quick, light delivery.

**Five days after the announcement** of the Liberty-Brush we had received 2,585 inquiries by mail and telegraph from dealers, firms, and individuals looking towards its purchase. Hundreds of inquiries continue to come every day.

**We will have a Liberty-Brush dealer** in every county, and some territory remains open. Liberty-Brush users will find representatives everywhere who are prepared to care for these cars.

**Orders for cars will be filled strictly** in the rotation in which they are received, and we urge prompt action if you would obtain a Liberty-Brush automobile at an early date.

**For particulars, address Sales Manager, Liberty-Brush division.** He will refer you to the nearest dealer or give you your own territory.

## HIS NAME MOST APPROPRIATE

"Knapp" It Was and Drowsy Delegate Proceeded to Live Up to Cognomen.

During the morning prior to the opening of the national convention, a special meeting of those delegates already arrived was held to discuss and vote on some preliminary measures. These met in a smaller hall, opposite the convention hall; and when they were all assembled in the stuffy room, one of the members leaned back wearily in his chair and promptly fell asleep.

After an hour's session, the chairman called a vote on a certain measure. All responded but the sleeper, whose snores now and then echoed through the room.

"Here! wake that man up!" demanded the chairman, at this point. "What's his name, anyway?"

No one being able to tell, and no one following the chairman's order to wake the sleeper up, that functionary at once called upon a ballot clerk to carry out the order. So accordingly the clerk hurried down the aisle to the dozer, shook him vigorously by the arm, asking him his name the while.

With a broken snore that perforated the atmosphere, the sleeper awoke. "What's his name?" again called out the impatient chairman.

At this, the clerk straightened up from the unknown member's chair, and announced, to the accompaniment of a roar of laughter, "Mr. chairman, he says his name is Knapp."—Judge's Library.

## Soft-Toned Bells of China.

The natives of China use large bells of their own make in many of their temples and monasteries, writes the United States consul at Foochow. I have noticed all through Japan and China that the tone of the monastery and temple bells is very soft and smooth, due to the superior quality of the material used in their manufacture and to the absence of iron clappers, the result being a marvelous softness and mellowness of tone. The bells are never swung, being always suspended in a fixed frame, and the sound is produced by striking them on the outer edge with a wooden mallet. This makes the soft tones which are so delightfully melodious.

## To Strengthen Rubbers.

When the children's rubbers get so that they slip off the heel, take a piece of strong, dark cloth and sew around inside of the heel, letting the selvage come even with the top, sew together over and over. This will also strengthen the shoe and make it wear longer.—Home Department, National Magazine.

## Elvira's Way.

The teacher (reading)—"Then the girl warrior faced the mocking foe and unsheathed her deadly weapon." What does that mean, children? Well, Elvira?

Elvira—Please, ma'am, I think it means she stuck out her tongue.—Cleveland Plain Dealer.

Some men, if poor, think it is enough if they are indignant about it, and tell how the miser counts and gloats over his ill-gotten gold.

## DOMESTIC MARKETS

**New York Stocks**  
NEW YORK, July 17.—A fairly strong tone developed at the opening of the stock market today, a majority of the leading issues ranging above Saturday's close. At the end of fifteen minutes, stocks receded slightly and a sagging tendency developed.

11 a. m.—After the earlier recessions the market again became strong with changes generally in the shape of small fractional gains.

Governments unchanged; other bonds firm.  
Noon.—Although trading was small in the late forenoon, the leading issues showed a firm tone and ranged slightly above Saturday's close.

2 p. m.—A heavier tone developed after midday, prices of a number of the more important issues declining fractionally under moderate pressure.  
The stock market lost heavy.

## Grain Letter

CHICAGO, July 17.—After a few minutes of firmness in wheat prices at the opening today, values sagged but at noon prices had not gone below the level of the Saturday close. The temporary firmness was due to stronger Liverpool cables, little gain in prices on northwest markets and additional crop damage reports, which caused shorts to cover at the best prices.

The selling pressure of corn followed as the result of bearish influences. There was nothing to give the market rally from the early decline. Advances confirmed good rains over portions of the west end of the corn belt since Saturday.

Oats prices had a sharp break in sympathy with corn. There was a general rush to sell. With big houses dumping oats it was not long before smaller thought it prudent to sell. Commission houses were not slow to sell on stop loss orders. The market showed more weakness than at any time in two months. There was little disposition to buy and what oats were bought were taken by shorts who wanted to secure their profits. Harvesting is nearly completed and threshing is general. Provisions were dull and easy. The only individual trading worthy of mention was the buying of December lard and the selling of January.

## Some Bad Examples.

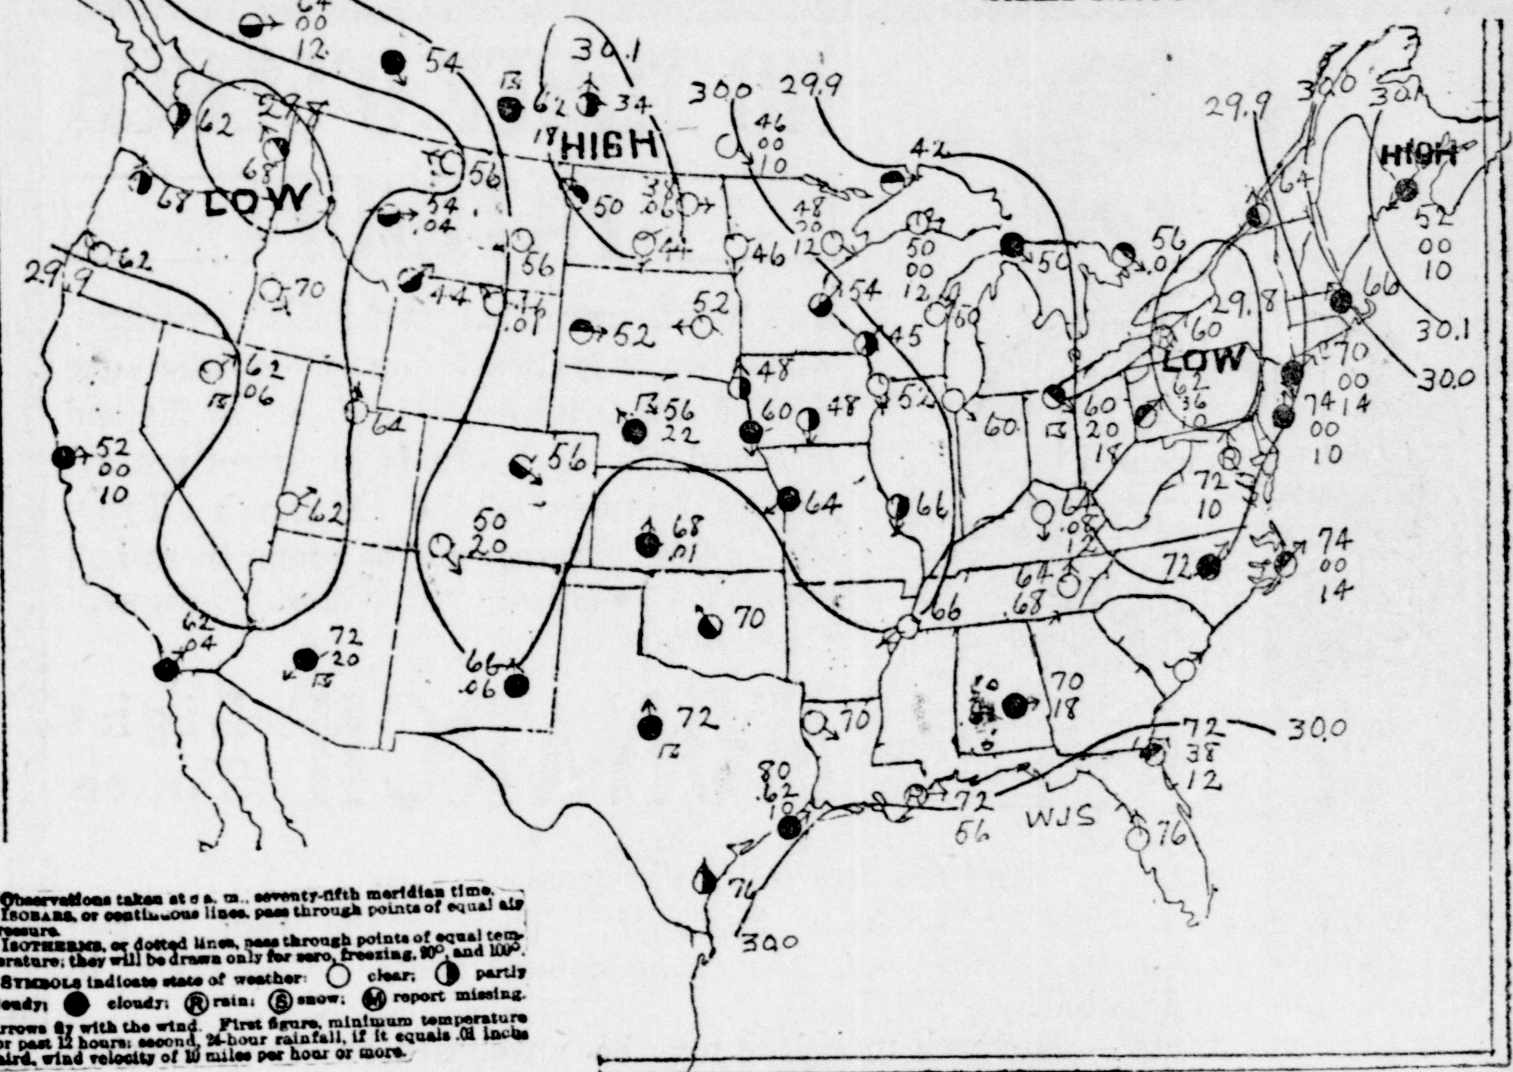

We have all heard of the butcher who was a vegetarian, of the barber who never shaved, of the shoemaker who let his children go barefoot, but here is a new one. A delegate to the late convention of the laundresses at Lawrence wore a celluloid collar.—Lawrence Gazette.

## Coming Humorist.

"Now, sir, what do you think of that?" said the mother, after she had boxed Bobby's ears. "I don't think at all," replied the youngster. "My train of thought has been delayed by a hot box."—New York Herald.

CHICAGO, 6; Washington, 5.  
CHICAGO, July 17.—With the  
score 5 to 2 against them, the White  
Sox poked out four runs in the ninth  
inning yesterday afternoon and won  
from Washington by a score of 6 to 2.  
Dougherty and Lange, sent in as  
pinch hitters for the Sox in the ninth,  
each scored a tally. Two of the  
Sox's runs were made off Gray, who  
relieved Groom in the middle of the

DETROIT, 6; Boston, 1.  
DETROIT, July 17.—The only run  
Boston got yesterday was a hoist into  
left field bleachers by Lewis. The  
Tigers amassed enough to make the  
count 6 to 1 in their favor. Errors  
helped the Tigers to two of their  
runs, their remainder being slammed  
home by opportune stick work.

BONDIES SPLIT  
ON LAST SERIES

Superior Club Takes Sun-  
day's Game, but Outcasts

Are Victorious Sat-  
urday

## CRANGLE FRACTURES WRIST

Pitched Ball Hits Happy on  
Left Wrist and He Is  
Removed to Hos-  
pital

Marvelous fielding on the part of  
the Superior players bunching of hits  
and lack of the same by the Outcasts  
decided the last contest of the series  
in favor of the visitors yesterday.  
The final score was 8 to 2.

Price opened the battle for the  
Bondies but was not in good condi-  
tion and after three runs had been  
made off a walk, a dead ball, a double  
and triple he retired and Widell  
went on to the slab.

Following this no more runs were  
made until the seventh when two  
more were made on a single and two  
doubles. A walk with a couple of sin-  
gles and an error by Joe Safford in  
the eighth sent three more of Tay-  
lor's men over the plate.

In the fifth two runs were scored  
by the Outcasts on a double by Ker-  
nan, a single by Wais, an error by  
Lippold and a walk. These were the  
only runs made by the Bondies.  
Dahlgren for the visitors was in  
splendid form, keeping his hits well  
scattered and received first class sup-  
port from his men. Bancroft at short  
and Kelly at first were the individual  
stars at the fielding game.

Crangle's Wrist Broken  
Happy Crangle, while batting, re-  
ceived a swift bender from Dahlgren  
which struck him on the left wrist.  
A physician was immediately sum-  
moned and he was rushed to the  
Lutheran hospital where his wrist  
was examined and was found to be  
broken. The bones were set but Crangle  
will probably be out of the game for  
the greater part of the season and  
may never be able to play ball again  
as he is a southpaw. However it is  
thought that he will be able to play  
toward the close of the season if the  
bones knit rapidly.

Happy has been doing some splen-  
did batting and fielding for the lo-  
cals and his injury will be a big draw-  
back on Bond's pennant hopes. Crangle  
did not accompany the team on  
its trip to Duluth last evening and  
Manager Bond will play the right

## BIRD BREAKS RECORD

PITTSBURG, Pa., July 17.—Dr. C.  
Bennett's War Horse and North Side  
Star, homing pigeons, have lowered  
the time record from Denver, Col.,  
to Pittsburg, 1,500 miles. The birds  
were liberated in Denver on July 4  
and arrived here after six days, seven  
hours and 46 minutes. Six out of  
thirty birds liberated already have  
arrived.

ONE HUNDRED NOTABLE  
FIGURES IN BASEBALL

## NO. 44—TIP O'NEILL

Who Batted .492 "After His Arm  
Gave Out."

When looking back at the record  
of 492 as a batter left by Tip  
O'Neill of the St. Louis Browns, one  
wonders what the figures might  
have been if Master O'Neill's salary  
wing had remained unimpaired. As  
it was, this 492 mark stands as  
far and away the best bit of work-  
manship achieved by any batsman  
whose name has come thundering  
down the ages, but at that it repre-  
sented only the effort of a man  
"whose arm had given out."

O'Neill went into the Brown  
camp on the understanding that he  
was to do the pitching. For a while  
this program was adhered to, and  
then happened that distressful  
thing described as losing an arm.  
Mr. J. E. O'Neill, better known as  
Tip, thereupon went out to pasture  
much as an old horse which has out-  
lived its drawing power is put to  
bask in the sun, and asked to per-  
form only the mildest of duty. He  
was given the freedom of the left  
field, and permitted to roam unfet-  
tered. Then it was his time to ap-  
pear at bat, he was allowed his turn  
just as if he had been able-bodied.

And it was at this point that Mas-  
ter O'Neill began to have fun with

people, principally pitchers. He loved  
to get a straight bat, because that  
was the sort he could send scooting  
to the gate in centerfield. He de-  
voutly admired to have an outcurve  
come his way, because he had a  
habit of guessing how it was com-  
ing and bouncing his bat at it till it  
disappeared in the right field bleach-  
ers. He did not object to the fast  
ones because they went all the fur-  
ther when he leaned on them with  
all the weight of his educated bat,  
and as for the slow ones, they were  
not to be scorned, either, for Tip  
had a way of sliding them past the  
third baseman which caused that  
party to cancel the name of O'Neill  
when it came time for evening  
prayers.

All in all, there wasn't a ball in  
the understanding or the imagina-  
tion of the most expert pitcher that  
Tip O'Neill wasn't ready and willing  
to meet more than half way, and he  
could bat just as well with the little  
end of the stick, as with the regular  
part. And with right or left,  
either.

Yes, yes, it's too bad poor old Tip  
O'Neill had to have his "arm give  
out," otherwise he might have  
achieved something worthy.

Tomorrow, George Van Haltren,  
who batted better than .300 for 12  
years.

garden while Eddie Klein will take  
Happy's place.

## Saturday's Game

Dunbar went wrong in the second  
and by the time that three of the  
Bondies had been retired, all had  
taken a rap at the sphere, six had  
landed for safe bingles and five had  
crossed the plate. This practically  
settled Saturday's game, the locals  
having such a lead that it was im-  
possible for the visitors to overtake  
them.

Dunbar pitched good ball with the  
exception of the second frame, only  
one other run being marked up  
against him. Watson proved to be in  
his old time form and held the Kids  
to six scattered hits.

The Superior club made their run  
in the third inning on two walks and  
a bingle.  
Black started the firecrackers of  
the locals in the second, landing on  
a twister for a clean hit. Joe Kernan  
then attempted to sacrifice but fouled  
the first one. This brought the Su-  
perior team in for a hunt and Ker-  
nan slammed out a line drive for  
three sacks, bringing in the first run  
of the game. Wais followed with a  
single, scoring Kernan and Snyder  
sacrificed Wais to second. Wattie  
then sent out a single, scoring Wais  
and Klein followed suit. Kelly hit a  
grounder which retired Klein and  
Crangle landed for a hit, scoring  
Kelly and Safford was retired on a  
fly to Lippold.

A three bagger by Kernan and a  
sacrifice by Wais netted the Bondies  
their last run in the eighth.

## DIAMOND DUST

The latest figures show that Ty  
Cobb leads both leagues in hitting.  
base running, base stealing, getting  
hits for extra bases, scoring runs  
and "putting Crawford."

Those White Sox, ex-hitless won-  
ders, are proving to be the best little  
ninth inning rallyers in the American  
league, coming from behind and lick-  
ing the Senators 6 to 5.

Draw near and listen: Ty Cobb  
didn't break into the summary of  
yesterday's game for a single start-  
ling act, and got only one miserable  
single. Which is more to be remark-  
ed about than if he had won the  
game by his individual playing.

Curry, a trolley league twirler,  
passed eleven "Athletes in six in-  
nings, while Indian Bender struck  
out ten men, Philadelphia winning,  
8 to 4.

Austin, Wallace and Criss partici-  
pated in that "unusually unique" af-  
fair—a triple play.

This young Mr. Gregg of the Naps,  
can't lose for winning. And please  
see how the Nap-less Naps have been  
mounting in the percentage "col-  
um."

Herzog prefers farming to play-  
ing with the Rustlers. He played on  
a real ball team once and cannot ac-  
custom himself to the change.  
Frank Chance, apparently out of  
the game for good, is having all kinds  
of trouble finding a substitute. Vic  
Saier is the latest to suffer by com-  
parison.

"What is this morning's bid for  
those eminent Andalusians, O'Toole  
and Kelly?" A million dollars and  
twenty-eight cents.

BROWNS WANT  
BLUE JACKET

ST. LOUIS, Mo., July 17.—If Un-  
cle Sam consents to sell the release  
of George J. Curry from the army,  
instead of receiving \$18 a month,  
he will be paid \$200 by the St. Louis  
American league club as a pitcher.  
The contract has been signed, pend-  
ing negotiations with the war de-  
partment.

ODDS 5 TO 1 ON  
JACK JOHNSON

LONDON, July 17.—Betting on  
the forthcoming fight between Jack  
Johnson and Bombardier Wells, who  
were matched last night to meet in  
London on Sept. 30 for a purse of  
\$40,000, began today. A few bets  
were registered at odds of 5 to 1,  
that Johnson will defeat the "Bom-  
bardier" the general sporting pub-  
lic does not take the match serious-  
ly, believing that Wells has not a  
chance.
